Dos and Don'ts of Video Conferencing (VC) – Guidelines

(For the Project Proponent)

1. Participants are advised to familiarize themselves with the platform being used before the VC begins.
2. Laptop, Desktop, Android Mobile or a tablet should be the preferred mode, as this gives more flexibility and operational ease.
3. Please join 15 min. before the start of the VC.
4. As soon as you join the VC, kindly put your mike on Mute. Keep it on mute position unless you are speaking.
5. Test your audio and/or video before a scheduled call.
6. Test the functionality of sharing the screen. The PPT or the document to be shared on screen should be open prior to sharing the Screen.
7. Kindly make sure that the room is sufficiently lighted and you are facing towards the light (Try pointing a strong desk lamp at the wall you're facing. You get good front light without having to look directly into a harsh light.)
8. Picture in Picture (PIP) is your best reference, you can see yourself and your surroundings just as others on the call can. Pay close attention to what you see there, and make adjustments as necessary.
9. Ensure that the positioning of the Camera is such that it does not distract other participants in the video meetings.
10. Be punctual and courteous. Introduce yourself whenever required and take note of other attendees' names so you can address them by name.
11. Keep your mobile(s) in silent mode.
12. Avoid multi-tasking as all can see each other. Do not carry on side conversation.
13. Switch off the camera, if required, but kindly make sure that it is switched on while speaking.
14. Please dress appropriately.
15. Kindly Close unused applications & videos, as they can be CPU memory intensive.
16. Minimize your hand gestures and body/head movements as well.
17. If you are facing low bandwidth problem, please turn off your video, this is expected to improve your voice quality.
18. Please do not leave meeting without taking permission. Joining and moving away from meeting time and again creates disturbances.
