	<p><b><u>Clearance with additional conditions.</u></b></p> <ol style="list-style-type: none"><li>1. The proponent shall comply with the proposals furnished in Environmental management plan.</li><li>2. The project proponent shall develop 1km greenbelt along approach roads &amp; village Road sides.</li><li>3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.</li><li>4. The proponent shall leave an area of 0.0287 Ha., as non Mining zone as per the modified mining plan.</li><li>5. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.</li><li>6. The project proponent shall provide 270 mts trench on North -west side of boundary of the mine lease area to prevent surface run off.</li></ol>
<b>Agenda Item: 203.02</b>	<b>M/s MEDA PROPERTIES is proposing a complete Proposed Construction of Residential Tower at Sy. No. 239-1B, 239-2,240-1A, &amp; 240-2A, 240-4A, 241-2, 242-1, Chinnachowk Village, Kadapa Mandal, Kadapa District, Andhra Pradesh- Environmental Clearance -Reg.</b>
SIA/AP/MI S/285851/2022	<p>B2 -building and construction Projects</p> <p>Earlier the proposal was placed in the 195<sup>th</sup> SEAC meeting . the minute details are as follows:</p> <p>The Proposal of <b>M/s MEDA PROPERTIES</b>, is for Environmental Clearance for <b>Proposed Construction of Residential Tower with 15 floors and 277 flats</b>. The total proposed project cost is 55 crores.</p> <p>The representative of project proponent and their Consultant <b>Sri Sai Manasa Nature Tech Pvt. Ltd.</b> have attended the meeting.</p> <p>The Committee noted that the The Proposed construction of a Residential Tower by M/s MedaProperties is located at Sy. No. 239-1B, 239-2,240-1A, &amp; 240-2A, 240-4A, 241-2, 242-1, Chinnachowk Village, KadapaMandal, Kadapa District, Andhra Pradesh. This project is proposed on a 1 BASEMENT + 2 STILT + 15 FLOORS. Air port NOC obtained on 28.06.2022. Fire NOC obtained on 08.07.22. The project consultant presented soil test reports conducted by M/s Sainath laboratories, Tirupathi. <b>In the test reports , the soil bearing capacity is shown as NIL at certain depths which is to be checked for veracity.</b>And also opined that for a project of this magnitude, the proponent should have obtained technical expertise from most experienced persons from nearby academic institutions.</p> <p>The committee noted that the 209 KLD water required for the proposal will be supplied by Municipal and borewellandproponent proposed to provide 213KLD sewage treatment plant for treating 178KLD of domestic waste water that generate on commissioning. Treated waste water is proposed to be used for flushing and gardening</p>

  
Member Secretary  
SEAC

  
Chairman  
SEAC

purpose(102KLD) and excess (73KLD) , if any , into municipal drain after treating to irrigation standards. About 1282kgs of garbage is expected to generate for which the proponent proposed to provide garbage suite and organic waste converter to ensure the disposal as per solid management rules 2016,

Then, SEAC meeting recommended to raise ADS for submission of proper soil test reports preferably conducted by experienced persons from nearby IIT Tirupati or Chennai or Sri Venkateswara University, Tirupati, or JNTU,Anantapur, etc and accordingly project proponent submitted soil test reports from Sri Venkateswara University, Tirupati.

The project proponent submitted reply to ADS on 21.10.2022.

The proponent submitted the soil test reports conducted by Geo technical laboratory , dept of Civil Engineering , SV university, Tirupathi. 30t/ m2 loading bearing capacity is observed at 8mts depth from ground level. Raft foundation is proposed.

EMP budget details:

Capital cost of the EMP measures proposed :55.0 Lakhs.

Recurring of the EMP measures proposed: 20Lakhs/Annum.

The proponent volunteered to provide Water treatment plant (1000LPH) with borewell to thechinnachowkVillage as a part of Corporate Social Responsibility (CSR) activity and shall maintain it properly.

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & OMs, detailed deliberations, **recommended to issue EC with the following additional conditions.**

1. The proponent shall construct and commission STP along with commissioning of project , treat the effluents to meet irrigation standards at any point of time before using for gardening purpose or disposal into municipal drain
2. The proponent shall comply with solid waste management rules 2016.
3. The proponent shall ensure sustainable environmental management, solid and liquid and implement environmental conditions given at Appendix-XIV of EIA notification 2006 and its amendments thereof.
4. The proponent shall harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and utilize the same within the premises.

Agenda Item No: 203.03	3.550 Ha, Road Metal & Ballast Mine of M/s. Rupa Stone Crusher, Sy. No. 297, of J. Annavaram village, Yeleswaram Mandal, East Godavari District, Andhra Pradesh - Environmental Clearance - Reg.
SIA/AP/MI N/258109	Category: B2.

  
Member Secretary  
SEAC

  
Chairman  
SEAC

/2022

**Refer back case**

**Earlier ,The application is placed in 184 SEAC meeting: The minute details are as follows:**

The proposed project is for mining of Road Metal & Ballast in an area of 3.550 Ha with a proposed production quantity of Road Metal & Ballast: 76950 m<sup>3</sup>/ annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals ( $\leq 250$  ha of mining lease area in respect of non-coal mine lease).

The representative of proponent and their consultant pridhvi enviro tech have attended the meeting .

The Committee noted that as per cluster letter issued by the Assistant Director of Mines & Geology, Rajamahendravaram, vide Lr.No. 5081/Q/2020, dt. 08.02.2022, there are 18 existing quarry leases within the radius of 500mts area. Out of 18 mine leases 16 leases mines leases were granted before 09.09.2013 and remaining 2 granted after 09.09.2013 but not working since 2018. The cluster area <5 Ha. This is a new mine.

The Committee noted that the extent of proposed mine lease area is 3.550 Ha. The project falls under B2 category. Mine life is 35 years.

A compliant received from Sri. K Rama Prasad , D. No. 5-502, Nandhaveedi, yeleswaram Mandal, East Godavari District against this mining unit on 10.03.2022, stating that Environmental Clearance is issued already to an extent of 4.426 Ha in this cluster (for two mines in Sy. No. 297 of Jaddangivillage ,yeleswaram Mandal, East Godavari District ) and therefore for issuing any other EC in this cluster public hearing is required.

This mine application was already taken up in 182.20 SEAC meeting and 179 of SEIAA meeting .

**The Decision of SEIAA:-** A compliant received on 10.03.2022 against the mine stating that Environmental Clearance is already issued to an extent of 4.426 Ha in this cluster (for two mines in Sy. No. 297 of Jaddangi village and issue of any other EC in this cluster attracts public hearing.

Refer to SEAC to examine w.r.t the complaint and cluster letter issued by ADMG.

The committee deliberated on the above complaint matter referred by the SEIAA, and observed that the issue of applicability of EPH cannot be retrospectively effected to the two new mine leases which were not mentioned in the cluster letter issued by the ADMG, Rajamahendravaram. EC is recommended based upon the cluster letter. The cluster letter was issued in February 2022 and the EC was obtained by the Complainant during March 2022. The cluster letter is hence correct and the project is in B2 category.

**MINUTES OF THE 203<sup>rd</sup> MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 9<sup>th</sup> and 10<sup>th</sup> November, 2022 AT VIJAYAWADA, A.P.**

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & OMs, detailed deliberations, recommended to issue Environmental clearance for Road Metal & Ballast: 76950 m<sup>3</sup>/ annum with the following conditions:

1. The proponent shall not disturb demarcated buffer zone (Existing plantation).
2. The proponent shall develop greenbelt all along the haulage roads.

**Decision of SEIAA in 193<sup>rd</sup> meeting :** Refer to SEAC to examine with latest cluster letter.

This case was placed in 199<sup>th</sup> SEAC meeting and recommended to raise ADS for latest cluster letter and land classification/ status letter from Tashildar and proponent submitted latest cluster dt.12.08.2022 and land status letter from Tashildar.

As per latest cluster letter dt. 12.08.2022, there are 18 quarry leases, 3 are after 2013 granted mines which are not in operation for more than 3 years and remaining all are granted before 2013. Hence no cluster and the proposal falls under B2 category only. As per land status letter addressed to AD mines, Rajamahendravaram by Tashildar, Eleswaram dt.24.04.2021, it is govt land.

The Committee after examining the project proposals, latest cluster letter, status letter of Tashildar, presentations, MoEF&CC' Notifications & OMs, detailed deliberations, recommended to issue Environmental clearance for Road Metal & Ballast: 76950 m<sup>3</sup>/ annum with the following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop 1km greenbelt along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall not disturb demarcated buffer zone (Existing plantation).

**Agenda Item No: 203.04** 4.032 Ha, Road Metal & Boulders of Sri S. Narayana Reddy, Sy. No. 15, S. Pydipala Village, Rowthulapudi Mandal, East Godavari District, Andhra Pradesh- Environmental Clearance - Reg.

**SIA/AP/M IN/25798 9/2022** Category : B2  
Refer back case

**The application is placed in 184 SEAC meeting: The minute details are as follows:**

The proposed project is for mining **Road Metal & Boulders** in an area of **4.032 Ha.** with a proposed production quantity of **Mining of Road Metal & Boulders - 72,000 m<sup>3</sup>/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

Chairman  
SEAC

area of 2.510 Ha with a proposed production quantity **Mining of Morrurum/Gravel & Ordinary Earth - 98880 m<sup>3</sup>/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals ( $\leq 250$  ha of mining lease area in respect of non-coal mine lease).

The representative of proponent and their RQP Dr. Vijay Kumar have attended the meeting.

The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, Eluru, vide Lr. dated: 21.05.2022, there are no existing quarry leases within the radius of 500 mts area and one LOI was issued. Hence B2 project.

Life of the mine is 5.7 years

The proponent volunteered to provide water treatment plant to the **Kethavaram** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & OMs and detailed deliberations, **recommended to issue Environmental Clearance with additional conditions.**

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt along road side, in buffer zone and shall take dust suppression measures.
3. The project proponent shall develop compensatory plantation @1:2.
4. Existing Buffer zone Plantation should not be disturbed.

Decision of SEIAA: Refer to SEAC to re-examine the recommendation with proper justification.

This proposal was placed in 199<sup>th</sup> SEAC meeting and **recommended to raise ADS for seeking reason for not attending the meeting.**

**The committee reexamined the cluster letter, mining plan etc. and observed that earlier recommendations holds good.**

SEAC

the meeting.

The Committee noted that as per cluster letter issued by the Asst. Director of Mines & Geology, Anathapuram vide Lr. dt. 18.02.2022, there are no **existing quarry leases** within the radius of 500 mtrs area. This is a standalone mining unit. Temple is at 83 mt in south - west direction of the mine. Submitted modified mining plan by leaving 0.92 Ha area as non mining zone towards temple side to meet the NGT norms of 200mt. High way at 223 mts and railway line at 300mts school at 237mts.

The project proponent has obtained TOR on 02/12/2020 and public hearing was held on 25.05.2022.

No specific environmental issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sr N. Surya Chandrudu, Project proponent: He informed that earlier mine lease was granted and they have stopped the mining operations since 2016 as the mine lease was expired. He also informed that he was in process of obtaining renewal of mine lease to carry out mining activity. He requested the Thondapadu villagers to continue their co-operation and he assured the gathering that he will extend his support to the extent possible for development of Thondapadu village.

The base line data was collected from Dec, 2020 to Feb, 2021.

The predominant wind direction is observed to be East to west. The maximum concentration of SPM is observed to be 72.45 µg/m<sup>3</sup>. The incremental concentration is 5.35 µg/m<sup>3</sup>. The GLC of SPM will fall at 0.75Km in WNW direction of the mine.

EMP Budget Details:

Capital costs: 17.2 Lakhs

Recurring cost: 10.8 Lakhs

The proponent volunteered to provide Digital class rooms at **Thondapadu Village** as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of the mine is -- years.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs and detailed deliberations, recommended to issue Environmental Clearance

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.

Chairman  
SEAC

production quantity of Laterite- 2,66,314 MTPA with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (<100 ha of mining lease area in respect of non-coal mine lease).

The issue was placed in the 182<sup>nd</sup> SEAC meeting. The representative of proponent and their consultant SV Enviro Labs & Consultants have attended the meeting and presented the case.

The Committee noted that as per cluster letter issued by Assistant Director of Mines & Geology, Rajamahendravaram has issued a letter vide Lr.No. 4016/Q/2020, Dated: 01.02.2022 there are no existing quarry leases are present within the radius of 500mts. This is a new mine and this is a standalone mine. Total cluster area is > 5 Ha.

As per the recommendations of SEAC committee, ADS was raised on 24.03.2022 for submission of status of court case and proponent submitted ADS reply on 04.04.2022.

The issue was again placed in the 183<sup>rd</sup> meeting and the Committee after examining the project proposals, presentations, MoEF&CC' Notifications & OMs, detailed deliberations, recommended to issue TOR with Public Hearing.

1. Implementation of Forest NOC measures in TOR.
2. The proponent shall plant the plants in 1:2 ratio/ Reclamation plans.
3. The proponent shall not use Forest internal roads for transportation purposes.
4. Surface runoff measures

The issue was placed in the 179<sup>th</sup> SEIAA meeting and referred back to SEAC.

Decision of SEIAA: Refer to SEAC to examine the issues raised in Hon'ble High Court order, w.r.t legal aspects, vigilance & Mines Department report.

Again this issue was placed in the 185<sup>th</sup> SEAC meeting.

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & OMs, detailed deliberations, **recommended to take legal opinion** keeping in view of the issues raised in Hon'ble High court order and as referred by SEIAA.

Accordingly legal opinion on the legal issues, vigilance & Mines Department reports obtained from Standing counsel on 12.06.2022 and the extract of opinion is reproduced as below:

**OPINION:**

In both the counts, the fact remains, the successful writ petitioners have not

  
Member Secretary  
SEAC

  
Chairman  
SEAC

fulfilled the conditions stipulated under law and the said orders of the learned single judge in W.P.Nos.4120 of 2017 dated 31.12.2021 and W.P.No.4208 of 2017 dated 31.12.2021 got its finality. On verification through the web pages of the said cases, there is no review applications are filed or pending before the Hon'ble High Court for relaxation of the said conditions put forth by the learned single judge and the said order got its finality.

Further, being successful writ petitioners cannot file an intra court appeal against their own orders as succeeded before the learned single judge and the said orders were challenged in W.A.Nos. 260 of 2022 and 261 of 2022 respectively and the said conditions of the learned single judge is not modified by the Hon'ble Division Bench, thus, the said conditions of the learned Single Judge got its finality.

The orders of the learned single judge (as extracted above) got finality and no applications were filed for modification of **the learned single judge's order as extracted above and got its finality**. The intra court appeals in W.A.Nos. 260 of 2022 & 262 of 2022 are nothing but abusive of process of law by a SUCCESSFUL WRIT PETITIONERS WITHOUT FULLFILLING THE CONDITIONS AS STIPULATED BY THE LEARNED SINGLE JUDGE IN THE LIGHT OF THE SETTLED LAW BY THE APEX COURT. Now, the question would may crop up "Whether the successful writ petitioners can file an intra court appeals (W.A.Nos. 260 of 2022 & 261 of 2022) rather than filing an application for review of the learned single judge order respectively?

I further inform to your good office, that, the SEIAA is not a party to the writ proceedings nor stay or order is operating against SEIAA for processing the said applications of TOR/EC. The fact remains, the writ petitioners who succeeded in the first instance before the learned single judge could not comply the true spirit of the order of depositing the amount as per information received.

Thus, on sound legal position, there is NO EMBARGO against the State Environmental Impact Assessment Authority (SEIAA) by the Hon'ble High Court for processing the applications of the individuals are concerned vide (1) SIA/AP/MIN/73437/2022 M/s.Marlin Infrastructures Pvt Ltd., (2) SIA/AP/MIN/73569/2022 M/s.Swarna Bharati Enterprises, (3) SIA/AP/MIN/73434/2022 M/s.Marlin Infrastructures Pvt Ltd., & (4) SIA/AP/MIN/73446/2022 M/s.Marlin Infrastructures Pvt Ltd., subject to result of the

  
Member Secretary  
SEAC

  
Chairman  
SEAC

above said W.A.Nos. 260 of 2022 & W.A.No.261 of 2022 dated 24.02.2022, since there is no stay/embargo against SEIAA and the SEIAA is duty bound to process the applications for TOR/EC in accordance with S.O.No.1533 dated 14.09.2006.

The above legal opinion is placed in 189<sup>th</sup> SEAC meeting:

The Committee after re-examining the legal opinion, project proposals, presentations, MoEF&CC' Notifications & OMs, detailed deliberations, recommended to issue **Standard TOR with Public Hearing** with following additional TORs.

1. Implementation of Forest NOC measures in TOR.
2. The proponent shall plant the plants in 1:2 ratio/ Reclamation plans.
3. The proponent shall not use Forest internal roads for transportation purpose.
4. Surface runoff measures.

The applicant made an application for EC on 26.10.2022. The committee noted that the proponent proposed an alternate road with a length of 4.52 KM which joins Sarbavarm to Pandavulapalem road.

Proposed 778m contour walls towards surface runoff protection measures. The proponent proposes to develop afforestation with 1200 saplings in the buffer area and along the either side of approach road to the mine.

Public hearing was held on 20.09.2022.

Employment opportunities, laying and development of roads, protection of podu cultivation, Education facilities, providing of ambulance, medical camps and drinking water facilities etc., were raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri. D.V. Padmasan, project Manager while giving reply to the issues raised, the project proponent informed that the roads are now in damaged stage. He assured that they provide roads before commencement of their operations itself. The road works will be laid with the local village people by giving wages. Skill development trainings will be given to the local people.

Member Secretary  
SEAC

Chairman  
SEAC

Further, committed noted that the SEIAA received representations from the following against the project proponent requesting not to issue EC.

1. DalithaSamaikyaMahilaSankshema Seva Sangam dt.28.09.2022.
2. BhujanaSamaikyaSankshema Seva Samithi dt. 13.09.2022.
3. DalithaSamaikyaMahilaSankshema Seva Sangam dt.13.09.2022.
4. S. Lakshmana Reddy dt. 12.10.2022.
5. Representation of Chintaluru villagers forwarded by RO, Kakinda along with PH minutes dt.20.09.2022.

L Lakshman  
Reddy.pdf

Dalitha Marlin.pdf

Bahujana.pdf

And also noted that the SEIAA is not a party to the any legal cases pertaining to this mine as per standing counsel legal opinion

The base line data was collected from March,2022 to may,2022.

The predominant wind direction is observed to be South to North. The maximum concentration of SPM is observed to be 60.7  $\mu\text{g}/\text{m}^3$ . The incremental concentration is 8.26  $\mu\text{g}/\text{m}^3$ . The GLC of SPM will fall at 0.49Km in SSW and South direction of the mine.

EMP budget details:

Capital cost of the EMP measures proposed : 29.1 Lakhs.

Recurring of the EMP measures proposed: 11.4 Lakhs/Annum.

Life of the mine is 56 years.

The proponent volunteered to provide Digital class rooms to the **Chintaluru** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & Oms, EIA reports, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with additional conditions as no blasting is involved in this mine.

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop 1km greenbelt along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall comply assurances given in the public hearing.
6. The project proponent shall not use forest internal roads for transportation.

  
Member Secretary  
SEAC

  
Chairman  
SEAC

**MINUTES OF THE 203<sup>rd</sup> MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 9<sup>th</sup> and 10<sup>th</sup> November, 2022 AT VIJAYAWADA, A.P.**

7. The project proponent shall comply conditions stipulated in the forest NOC dt.28.06.2021.
8. **This EC is recommended without any prejudice to the final outcome of any court cases on this subject mine and the EC will be automatically cancelled in case of adverse court order if any.**
9. **The final court orders to be complied by the proponent.**
10. The proponent shall provide an alternate road with a length of 4.52 KM which joins Sarbavarm to Pandavulapalem road as stated in the compliance to additional TOR.

Proposed 778m contour walls towards surface runoff protection measures. The proponent proposes to develop afforestation with 1200 saplings in the buffer area and along the either side of approach road to the mine.

Public hearing was held on 20.09.2022.

Employment opportunities, protection of natural peacock habitat, compensation to cashew plantation farmers, laying and development of roads, protection of podu cultivation, Education facilities, providing of ambulance, medical camps and drinking water facilities etc., were raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:  
Sri. M. Satish, Project Director while giving reply to the issues raised, the project proponent informed that they have already surveyed the area and planned for education development and to provide medical assistance in the village. He assured that preference will be given for employment to the local people only and they will explore the possibility to provide employment to the local village people in other area. Skill development trainings will be given to the local people.

He promised that peacocks will be protected. He said that no blasting operations will be carried out and only open casting of mining operations will be done. There will not be any impact on the water falls existing due to mining activities and the tourism places will be maintained as they area.

Compensation will be given to the farmers, losing their lands and employment will be given to the farmer's families. Further he assured that Ambulance will be provided in the village.

Further, committed noted that the SEIAA received representations from the following against the project proponent requesting not to issue EC.

1. DalithaSamaikyaMahilaSankshema Seva Sangam dt.28.09.2022.
2. BhujanaSamaikyaSankshema Seva Samithi dt. 13.09.2022.

Geology, Palamaner, vide Lr. dated: 15.03.2022, there is one quarry lease within the radius of 500 mts area and this one mine is not working since, 03.05.2019. The total cluster area is 3.135 Ha which is <5.0 Ha and submitted LOI on 20.01.2022 for 20 years.

In 191<sup>st</sup> SEAC ADS was raised for want of Forest NOC as the Madanakonda RF is at a distance of 24.66mts from the proposed site and accordingly the proponent submitted forest NOC dt. 06.09.2022 on 06.09.2022.

The Committee noted that the extent of proposed mine lease area is **3.135 Ha**. The project falls under B2 category. Life of the mine is 22.77 years.

The proponent volunteered to provide Water treatment plant to **Naravaripallivillage** as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, ADS reply, MoEF&CC' Notifications & OMs and detailed deliberations, recommended to issue Environmental Clearance with following additional conditions.

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt along approach roads & village Road sides.
