MINUTES OF THE 203<sup>rd</sup> MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,  
HELD ON - 9<sup>th</sup> and 10<sup>th</sup> November, 2022 AT VIJAYAWADA, A.P.

Agenda Item: 203.21	2.934 Ha Mining of Earth, Road Metal of M/s. Sri Mallikarjuna Minerals at Sy. No. 72/7 to 72/11(72), Decherla Village, Kovvuru Mandal, West Godavari District, Andhra Pradesh - Environmental Clearance - Reg.
SIA/AP/MI N/404276 /2022	<p><b>Category: B2 at par with B1.</b></p> <p>The proposed project is for mining of <b>Earth, Road Metal</b> in an area of <b>2.934 Ha.</b> with a proposed production quantity of <b>Gravel Earth, Road Metal -76,800 m<sup>3</sup>/annum</b> with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (<math>\leq 250</math> ha of mining lease area in respect of non-coal mine lease).</p> <p>The representative of the project and their Consultant Huber Enviro care systems, have attended the meeting and presented the case.</p> <p>The Committee noted that as per cluster letter issued by Asst. Director of Mines &amp; Geology, Eluru, vide Lr. dated: 24.02.2021, there are 10 quarry leases existing within the radius of 500 mts area and obtained LOI on 19/10/2020.</p> <p>A church is at 180 mts and the project proponent has showed 0.2 Ha as non-mining area as per NGT norms to meet 200m in mining plan sketches and submitted modified mining plan..</p> <p>The SEIAA has issued Standard TOR on 25/02/2022 and public hearing was held on 17/06/2022.</p> <p>Employment, controlled blasting, skill development programs, Water sprinkling roads and drainage system , tree plantation on approach roads are the main issues raised in the public hearing.</p> <p>Representative of the mine operator :</p> <p>He thanked everyone who participated in the public consultation and explained the public for following preventive and control measures for proposed mining activity:</p> <ul style="list-style-type: none"><li>• Wet drilling will be adopted and controlled sequential blasting will be carried out. Due to controlled sequential blasting , the vibrations in the surrounding areas will be minimal.</li><li>• The dust may get generated due to transport vehicles that carry the mined mineral . it will be suppressed by water spraying with tankers.</li><li>• The vehicles carrying the mines material will be covered with tarpaulins.</li><li>• It is proposed to take up plantation of 1000 trees suitable to local conditions, in the vacant government land and also on both sides of the approach road . the protection and maintenance of these trees will be the responsibility of the quarry management only.</li><li>• Once operations get started , half yearly monitoring of ambient air quality, noise</li></ul>

Member Secretary  
SEAC

Chairman  
SEAC

- levels , water quality testing, etc., will be carried out and the reports will be submitted to MoEF & CC , regional office, APPCB and SEEIA.
- In the proposed mine, around 20 peoples will get direct employment and another 35 persons get indirect employment . in addition , opportunities will be given to locals , in various supporting activities like transportation of mined materials, water spraying on the approach roads , free plantation and their maintenance etc.,
  - As part of CSR, in association with other quarries operating in the village, it is proposed to strengthen the existing PHC at kovvur. The proponent also proposed to arrange health camps on every six months , for the benefit of the people from surrounding villages under CSR funds.
  - All precautionary measures will be take up for environmental protection.

The summary of points in public consultation:

1. Majority of participants are public of the village & nearby villagers , quarry crusher association members, mine labour, farmers and NGOs.
2. All the participants are welcoming the proposed mine project and proposed suggestions.
3. Objections are not received against the proposed mine from the participants in the public hearing.

The base line data was collected from Dec, 2021 to Feb,2021.

The predominant wind direction is observed to be East to west . The maximum concentration of SPM is observed to be 56.33  $\mu\text{g}/\text{m}^3$ . The incremental concentration is 3.20  $\mu\text{g}/\text{m}^3$ . The GLC of SPM will fall at 0.3Km in W direction of the mine.

Life of the mine is 10years.

EMP budget details:

Capital cost of the EMP measures proposed : 15.0 Lakhs.

Recurring of the EMP measures proposed: 4.3 Lakhs/Annum.

Amount proposed for CSR activities: 5.0 Lakhs.

The proponent volunteered to provide Water treatment plant with borewell to the **Gowripatnam** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & Oms EIA report, Public hearing minutes and detailed deliberations, **recommended to issue Environmental Clearance with additional conditions.**

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop 1km greenbelt along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing

buffer zone plantation should not be disturbed.

4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The project proponent shall adopt controlled blasting as the church is within 500m
6. The project proponent shall leave 0.15 Ha towards church side of the lease area on eastern side as non mining zone and develop plantation on the area.

**Agenda Item: 203.22**

**23.935 Ha of Mining of Quartz And Quartzite by Sri. SK. Habeeb Basha at Sy.no. 556(P) of Mandallanayanipalli Village, Duttalur Mandal, SPSR Nellore District, Andhra Pradesh - Environmental Clearance - Reg.**

**SIA/AP/MIN/404639/2022**

**Category: B2 at par with B1.**

The proposed project is for mining of **Quartz And Quartzite** in an area of **23.935 Ha.** with a proposed production quantity of **Quartz- 13125TPA and Quartzite- 435125 TPA** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals ( $\leq 250$  ha of mining lease area in respect of non-coal mine lease).

The representative of the project and their Consultant M/s. S V Enviro and consultants , have attended the meeting and presented the case.

The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, Nellore, vide Lr. dated: 19.05.2021, there are no quarry leases existing within the radius of 500 mts area. This is a standalone mining unit and obtained LOI on 04/02/2021.

The SEIAA has issued Standard TOR on 15/06/2022 and public hearing was held on 16/09/2022

Employment, controlled blasting, skill development programs, Water sprinkling on approach roads, impact on surrounding agriculture , loss of cattle grazing, pattas issued in the area surrounding mines are the main issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri SK Habeeb Basha: While responding to the issues, he has given assurance that the mining will be carried out without any harm to the cattle and surrounding area; mining will be done duly following all the measures as per the Government norms; steps will be taken for providing cattle graze & water; water tanker will be provided for sprinkling on the roads to control dust pollution during vehicular movement; mining will be carried out

The project proponent shall maintain buffer zone on either side of natural stream by leaving 2.163Ha as per modified mining plan and protect the stream..</li><li>6. The project proponent shall comply conditions stipulated in forest NOC conditions.</li></ol>
Agenda Item: 195.18 & 199.09 & 203.24	<b>1.940 Ha. Mining of Barytes of Smt. B. Vijayamma at Sy.Nos. 129/1, 129/2, 130/1A, 130/1B, 130/3, 132/2A, 132/2B, 132/1C, 132/3, 132/4, 131/P1 &amp; 131/P2 of Mamillapalli Village, Kalasapadu Mandal, Y.S.R.Kadapa District - Environmental Clearance - Refer back case - Reg.</b>
SIA/AP/MI N/278895 /2022	<b>Category: B2</b>  The proposed project is for underground mining of <b>Barytes</b> in an area of <b>1.940 Ha.</b> with a proposed production quantity of <b>Mining of Barytes - 1488 TPA</b> with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

  
Member Secretary  
SEAC

  
Chairman  
SEAC

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals ( $\leq 250$  ha of mining lease area in respect of non-coal mine lease).

The representative of the proponent and their Ample Environ Private Limited have attended the meeting.

The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, Kadapa, vide Lr. dated: 19.05.2022. There are 02 existing quarry leases within the radius of 500 mts area. The total cluster area is 2.615 Ha which is  $< 5.0$  Ha.

The Committee noted that the extent of proposed mine lease area is **1.940 Ha**. The project falls under B2 category. Life of mine is 36 years.

The proponent volunteered to provide 4 No of Solar Lights, one Bus shelter & Water treatment plant to the **Mamilapalli** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee, after examining the project proposals, presentations, MoEF&CC Notifications & OMs and detailed deliberations, **recommended to issue Environmental Clearance with additional conditions.**

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt along road side and shall take dust suppression measures.
3. Buffer zone Plantation should not be disturbed.
4. The project proponent shall not disturb existing car track passing through mine on surface.
5. The project proponent shall follow conditions stipulated in DGMS rules and regulations.
6. The project proponent shall provide minimum 2 no of shafts and it should be interlocked with each other.

**192<sup>nd</sup> meeting Decision of SEIAA: Refer back to SEAC to examine that the present mine is not overlapping the survey numbers of the mine closed by the NGT in the O.A No. 115 of 2021 in same village.**

  
Member Secretary  
SEAC

  
Chairman  
SEAC

**This case was placed in 199<sup>th</sup> SEAC meeting along with SEEIA recommendations.**

The project proponent and their consultant Ampl Environ Private Limited have attended the meeting.

In 199<sup>th</sup> SEAC meeting recommended to raise ADS for submission of letter from AD mines on stating that there is no overlapping of this mine with the mine closed by by the NGT in the O.A No. 115 of 2021 in same village.

Accordingly the project proponent has submitted a letter from AD Mines dt. 27/10/2022.

The salient points of the letter reads as follows :

After superimposition, it was noticed that the LOI issued area of Smt. B.Vijayamma over an extent of 1.940 Ha in Sy.no. 129/1, 2, 130.1A, 1B&3, 132/2A, 2B,1C, 132/3, 134/4 and 131/p1, P2 of mamillapalli village of Kalasapadu Mandal is not overlapping with the mine closed by the Honble NGT in O.A No. 115/2021 in the same village i.e., Smt C. Kasturi Bai for Barytes over an extent of 30.696 Hectares in Sy. No. 1 & 133 of Mamillapalli village, Kalasapadu Mandal, Y.S.R District. Accordingly, the Google map duly showing both the LOI issued area of Smt. B, Vijayamma and the lease area of Smt. C. Kasturi Bai is submitted for ready reference.

The Committee, after examining the project proposals, AD Mines letter, presentations, MoEF&CC' Notifications & OMs and detailed deliberations, **recommended to issue Environmental Clearance with the conditions as mentioned in the previous recommendations.**

Agenda  
Item:  
203.25

**4.930 Ha Mining of Building Stone & Gravel Quarry of Sri Botcha Naidu Babu at Sy. No.267, Nelivada Village, Bondapalli Mandal, Vizianagaram District, Andhra Pradesh - Environmental Clearance - Reg.**

SIA/AP/MI  
N/404381  
/2022

**Category: B2 at par with B1.**

The proposed project is for mining of **Building Stone & Gravel** in an area of **2.934 Ha.** with a proposed production quantity of **Building Stone- 20443 & Gravel-81773 m<sup>3</sup>/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals ( $\leq 250$  ha of mining lease area in respect of non-coal mine lease).

  
Member Secretary  
SEAC

  
Chairman  
SEAC

The representative of the project and their Consultant Huber Enviro care systems, have attended the meeting and presented the case.

The SEIAA has issued Standard TOR on 18/10/2021 and public hearing was held on 27/05/2022.

Employment, crop compensation & anticipated dust Pollution due to mine are the main issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri J. Rama Rao, Authorized person, in response to the villager's suggestions has informed that the management will provide water plant and will not cause any problems to the nearby lands & will give jobs to local people and will consider all the remaining suggestions given by the participants and requested the villagers to support them.

The base line data was collected from Nov, 2021 to Jan,2022.

The predominant wind direction is observed to be north East to south west . The maximum concentration of SPM is observed to be 59.65  $\mu\text{g}/\text{m}^3$ . The incremental concentration is 3.10  $\mu\text{g}/\text{m}^3$ . The GLC of SPM will fall at 0.42 Km in W direction of the mine.

Life of the mine is 28 years.

EMP budget details:

Capital cost of the EMP measures proposed : 14.0 Lakhs.

Recurring of the EMP measures proposed: 5.0 Lakhs/Annum.

Amount proposed for CSR activities: 5.0 Lakhs.

The proponent volunteered to provide Water treatment plant with borewell to the **Nelivada** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & Oms EIA report, Public hearing minutes and detailed deliberations, **recommended to issue Environmental Clearance with additional conditions.**

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop 1km greenbelt along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards. at any point of time.
5. The project proponent shall adopt controlled blasting as the Jagananna colony is within 500m.

Chairman  
SEAC

Violation TOR with public hearing was issued on 01.07.2022. public hearing was held on 20.09.2022.

**SO No 804 dt 14.03.2017 compliance :**

1.Credible action was initiated vide CC No 2051/2022 dt 22.07.2017 in the court of Junior Civil Court, Nellore.

2.Submitted undertaking on 28.01.2022 stating that the violation will not be repeated.

3. Remediation and resource augmentation plan with a cost of Rs, 522500/- submitted at RO, Nellore on 21.10.2022.

**Penalties as per OM 07.07.2021:**

The total project cost is 70 lakhs. Applicant submitted that the total turn over during penalty period is Rs 6994750/-. Total penalty would be Rs 87486.88 ( 70000 + 17486.88 ). The applicant to submit letter from the mines department to this effect. Pay and submit at SPCB with proof of submission to SEIAA.

**Public hearing details**

No specific environmental issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri M. Visweswara Rao, while responding to the issues, he has given assurance that he will support to the extent possible for the sake of the villagers & development of the village; he agreed to sponsor two volunteer teachers to the school from the next month on behalf of their mining unit; mining will be carried out without any harm to surrounding environment & will take all the measures as per the Government Norms.

The base line data was collected from March,2022 to May,2022.

The predominant wind direction is observed to be South to North. The maximum concentration of SPM is observed to be 65.1  $\mu\text{g}/\text{m}^3$ . The incremental concentration is 2.11  $\mu\text{g}/\text{m}^3$ . The GLC of SPM will fall at 0.55 Km in Northern direction of the mine.

**EMP Budget Details:**

Capital costs: 7.2 Lakhs

Recurring cost: 6.2 Lakhs

The proponent volunteered to provide 2Nos of volunteer teachers to tummalapur village school.

The proposed mining unit is located in Reserved forest area and the project proponent has obtained stage - I clearance from Forest Department . The total project cost is 70 lakhs. The total turn over during penalty period is Rs 6994750/-. Total penalty would be Rs 87486.88 ( 70000 + 17486.88 )

The project proponent has submitted modified mining plan dt. 10.02.2022.

The Committee after examining the project proposals, presentations, EIA appraisal,

Garden due to mining, skill development, drinking water problems, impact on dairy farms, Venkateswara Swamy foot markings in the proposed area, are the main issues raised in the public hearing.

The committee observed that as per the NGT norms there is no habitation within 200 m and also habitation is more than 500m and as per public hearing minutes some people were supported and some people were opposed without citing proper environmental concerns and committee opined that it can be considered as mixed response as there are no proper environmental concerns and decided to recommend EC. A natural stream is flowing through mine. The Gram Panchayat of Tarluwada has passed resolution for grant of permission in favor of proponent for quarrying of Gravel and Rough Stone. The lease was sanctioned to the applicant by Department of Mines & Geology, Govt. of Andhra Pradesh in 2018 after submission of detailed field inspection by the Mandal Surveyor, Mandal Revenue Inspector, Village Revenue Officer and Deputy Zonal Manager of APIIC.

The reply by the proponent for the issues raised in the PH is as follows:

Sri. G. Chandra Mouli project consultant has spoken on behalf of Management and informed that two mine leases were granted to Sri. M. Rama Raju at Sy.no 211 & 212 and conducted environmental impact assessment study for the proposed project and pollution control incorporated in environmental impact assessment report. He said that the proposed mining activity carried out on lease basis. He said that in EIA report no where the project consultant mentioned depth of the mining activity 200ft and the proposed mining activity carried out up to ground level only. He informed that very less blasting material used in the proposed mining project and mining activity carried out without affecting surrounding environment.

The base line data was collected from Oct, 2021 to Dec, 2021.

The predominant wind direction is observed to be North-East to South West. The maximum concentration of SPM is observed to be 53.2 µg/m<sup>3</sup>. The incremental concentration is 6.29 µg/m<sup>3</sup>. The GLC of SPM will fall at 0.3 Km in South West direction of the mine.

EMP Budget Details:

Capital costs: 12.23 Lakhs  
Recurring cost: 5.86 Lakhs

The proponent volunteered to provide Water treatment plan to Tarluwada Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of the mine is 83 years.

There is no reserve Forest in nearby and CA plantation is at a distance of 0.9468 KM. The project proponent has submitted APIIC NOC and Grama panchayat teermanam.

/2022

Category: B2.

The proposed project is for mining Mica, Quartz, Feldspar & Vermiculate in an area of 4.87 Ha. with a proposed production quantity of Mica Scrap -46 TPA, Quartz- 61 TPA, Feldspar- 153 TPA with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

• The project proponent obtained EC on 18.01.2016 for production capacity of Mica Scrap -46 TPA, Quartz- 61 TPA, Feldspar- 153 TPA with a validity of 5.4 years which expired on 30.04.2022 after considering 1 year covid extension period. The mine operator made an application for extension of EC on 17.06.2022 within 90 days of expiry of EC. DMG, Govt of AP Proceedings No. 3049/M/2005 Dt: 22.05.2009 issued lease for 20 years (20 Year Lease period)

After conducting resurvey for mineral reserves and with fresh approved mining plan dt 02.07.2019, it is observed that mineral is available and the life of the mine is 207 years.

The proponent volunteered to provide School uniforms and Bags to Gokulabrundavanam Village primary School as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

A complaint dt. 01/07/2022 was received against this unit stating that not to issue permission and there are two Writ petitions on this unit vide W.P no. 30679 of 2018 and 17614 of 2011. 6<sup>th</sup> respondent is the applicant.

The committee observed that the cases are for dispute pertaining to ownership of land of mining lease area.

HON'BLE SRI JUSTICE R. RAGHUNANDAN RAO W.P.No.30679 of 2018 ORDER: The petitioner is the owner of Ac.5.90 cents of land in Sy.No.535 of Gokula Brindavanam Village, Sydapuram Mandal, Nellore District. The 6<sup>th</sup> respondent had been given a mining lease over Ac.12.05 cents of land in Sy.No.535. The petitioner claims that his land has also been included in the above Acres 12.05 cents and the 6<sup>th</sup> Respondent cannot undertake mining in his land. The ownership of the petitioner over the said land was brought into doubt due to the proceedings of the Joint Collector dated 19.02.2011. These proceedings have been suspended by this Court in W.P.No.17614 of 2011. In view of the suspension of the proceedings of the Joint Collector, this Court would not be going into the question of title of the petitioner over the said land. 2. It is the case of the petitioner that the 6<sup>th</sup> respondent, under the guise of carrying on mining activity in his lease area, had undertaken underground mining whereby he had entered into the land of the petitioner below the surface and is carrying on extensive mining activity without obtaining any permission for such activity and without obtaining environment clearance and other clearances required for such mining activity. Initially a large amount of pleadings and material papers have been filed before this Court on the question of the extent of mining being undertaken by the 6<sup>th</sup> respondent, and whether such mining is permissible or not. 3. The 6<sup>th</sup> respondent, by a Memo, has filed the mining plan and the approval obtained for underground mining. The said approval had been given under the covering letter bearing No.4166/MS/Quards/ RRR,J W.P.No.30679 of 2018 2 NLR/2018 dated 02.07.2018 from the Joint Director of Mines and Geology to Deputy Director of Mines and Geology (FAC), Guntur. The said approved mining plan is for a period of five years i.e., from 2020 to 2024. In the circumstances, the contention of the petitioner that the 6<sup>th</sup> respondent

  
Member Secretary  
SEAC

  
Chairman  
SEAC

	<p>was undertaking underground mining without the approval, would have to be rejected. However, the petitioner would also contend that this approval has been given behind the back of the petitioner and he would be entitled to challenge the same. 4. The petitioner, in turn, filed a Memo dated 04.07.2022 enclosing the notice issued by the A.P. Pollution Control Board dated 02.06.2022 in Lr.No.N-785/APPCB/RO-NLR/2022 wherein the 6th respondent was directed to stop operations of mining in Sy.No.535/P immediately. The petitioner also produced Lr.No.3049/M/2005, dated 06.06.2022 from the Assistant Director of Mines and Geology, Nellore to the State Environmental Impact Assessment Authority, Vijayawada. In this letter the Assistant Director of Mines and Geology has stated that the Environmental clearance of the 6th respondent had expired on 30.04.2021 and no production has been carried out from 01.05.2021. 5. Basing upon these two documents, Sri K.S. Murthy, learned Senior Counsel appearing for the petitioner would submit that the 6th respondent cannot carry on any mining activities until the lease granted to the 6th respondent is renewed and the prohibitory order issued by the A.P. Pollution Control Board on 02.06.2022 is withdrawn. The learned Senior Counsel would also point to Condition No.1 in the letter dated 14.03.2012 issued by the Director of Mines Safety to the 6th respondent, stipulating that the connections between the mines shall exclusively be utilised as second outlet purpose and would contend that this condition cannot be RRR,J W.P.No.30679 of 2018 3 extended to mean that the 6th respondent may go through the land of the petitioner. 6. Sri N. Vijay, learned counsel appearing for the 6th respondent would submit that in view of the approved mining plan, the 6th respondent would be entitled to carry on underground mining activities subject to the withdrawal of the prohibitory orders of the A.P. Pollution Control Board and after environmental clearance is obtained by the 6th respondent. 7. <b><u>In view of the aforesaid submissions, this writ petition is disposed of directing the respondents not to permit the 6th respondent to undertake any mining activities except in accordance with the approved mining plan and after prohibitory orders of A.P. Pollution Control Board dated 02.06.2022 are withdrawn and the 6th respondent obtaining Environment clearance for the mining lease for his mining area. Needless to say, it would also be open to the petitioner to challenge the grant of approval of mining plan of the 6th respondent and such other proceedings as would be permissible under law. There shall be no order as to costs.</u></b> 8. As a sequel, pending miscellaneous petitions, if any, shall stand closed. _____ R. RAGHUNANDAN RAO, J. 5 th August, 2022 Js. RRR,J W.P.No.30679 of 2018 4 HON'BLE SRI JUSTICE R. RAGHUNANDAN RAO W.P.No.30679 of 2018 5 th August, 2022 Js. The proponent has applied for extension of Environmental Clearance within time stipulated and hence considered by the committee. The Committee after examining the project proposals, approved mining plan, presentations, MoEF&amp;CC' Notifications &amp; OMs and <u>detailed deliberations recommended to issue EC extension upto 21.05.2029 till the lease period or with following conditions,</u></p> <ol style="list-style-type: none"><li>1. The proponent shall comply with the proposals furnished in Environmental management plan.</li><li>2. The project proponent shall develop greenbelt along approach roads &amp; village Road sides.</li><li>3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.</li><li>4. <b>The proponent shall obtain withdrawal of APPCB orders dt 02.06.2022.</b></li></ol>
Agenda Item: 203.34	22.946 Ha Quartz mine of Dr. S. Ravindranath Reddy, Survey No. 1/P, Yerrabommanapalli Village, Chakrayapeta Mandal, Kadapa District, Andhra Pradesh - Environmental Clearance- Reg.

**Category: B2 at par with B1.**

The proposed project is for mining of **Quartz** in an area of 22.946 Ha. with a proposed production quantity of **Quartz- 10,80,000 TPA** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals ( $\leq 250$  ha of mining lease area in respect of non-coal mine lease). Forest at 223 mts.

The project proponent and their consultant M/s. Team Labs have attended the meeting.

The SEIAA has issued Violation TOR with public hearing on 12.08.2022. public hearing was held on 28.10.2022.

**SO No 804 dt 14.03.2017 compliance :**

1. Credible action was initiated vide CC No 460/2022 dt 11.11.2022 in the court of Junior Civil Court, Lakkireddipalli.
2. Submitted undertaking stating that the violation will not be repeated.
3. Remediation and resource augmentation plan with a cost of Rs, 5,95,000/- submitted. BG is to be submitted.

**Public hearing details**

Employment and taps in village are issues raised. No specific significant issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

  
Member Secretary  
SEAC

  
Chairman  
SEAC

Response of the management regarding the issues raised by the public:

Sri. GVS Reddy, Management Representative, thanked the officials, public representatives, villagers and stated that they have proposed to operate the mine with a production capacity of about 10,80,000 TPA of Quartz. He informed that for every ton dispatched from the quarry they will be paying Rs. 209/- as per current rates to the Government in the form of royalty and contribution to DMF. They will also be paying other taxes like GST and income taxes. He informed that they are committed to adhering to the applicable laws and regulations. He assured to provide facilities as per the requests made by village representatives, such as a refrigerator in anganwadi, taps at the borewell near the main road etc. He further informed that employment of local villagers is in their interest. Whenever there is a shortage of skills in the local areas to suit the project's needs, people will be imparted training to improve their skills. He further assured to take up avenue plantation with medicinal value plants like rasvi, vepa and kanuga varieties in the mine and surrounding area. He stated that blasting will be carried out during day time only and that too as per the fixed time schedule with proper guarding to avoid harm to the people and cattle. He expressed that they will not be able to provide speed breakers as it is in the Government's domain, however they will provide training to the drivers to maintain speed limit and avoid accidents. He stated that the management will extend cooperation for the development of village.

The base line data was collected from March,2022 to May,2022.

The predominant wind direction is observed to be North - East to South West. The maximum concentration of SPM is observed to be 65.1  $\mu\text{g}/\text{m}^3$ . The incremental concentration is 0.54  $\mu\text{g}/\text{m}^3$ . The GLC of SPM will fall at 0.55 Km in South West direction of the mine.

4. The project proponent shall carry out mining duly maintaining proper benches.
5. The project proponent shall comply with the assurances given to the public in the public hearing.
6. The project proponent shall comply conditions stipulated in the Forest NOC dt 16.09.2022.
7. The project proponent shall construct trench ( 200mts) and siltation pond on south east corner of the mine .

Agenda  
Item No:  
203.35

**2.780 Ha Mining of Black granite of M/S VEERAHANUMAN MINERALS at Sy. No 119/3(P), 119/5, 119/6, 119/7(P), 120/1, & 120/2 of Ummadivaram Village, Vinukonda Mandal, Guntur District, Andhra Pradesh - Environmental Clearance - Reg.**

SIA/AP/MI  
N/404843  
/2022

**Category: B2.**

The proposed project is for mining of **Black granite** in an area of 2.780 Ha. with a proposed production quantity of **Black granite**-5077 Cum/Annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (<250 Ha of mining lease area in respect of non-coal mine lease).

The representative of proponent and their RQP, Ravikanth have attended the meeting.

The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, Palanadu, vide Lr. dated: 26.10.2022, there is one existing quarry lease within the radius of 500 mts area and the total cluster area is 3.78Ha which is <5.0 Ha. And obtained LOI on 11.03.2022.

The project proponent has submitted mining plan by leaving 0.46 Ha towards road side as a non-mining zone as per NGT norms to maintain 100mt distance..

Life of the mine is 21 years.

EMP budget details:

Capital cost of the EMP measures proposed : 8.55 Lakhs.

Recurring of the EMP measures proposed: 4.25 Lakhs/Annum.

The proponent volunteered to provide Water treatment plant with borewell to the **Ummadivaram** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & Oms and detailed deliberations, recommended to issue Environmental

203.41

4.95 Ha.ordinary sand mine in Ordinary Sand bearing area Mukkamala-1 sand reach over an extent of of Mukkamala Village, Peravali Mandal, West Godavari District, Andhra Pradesh- EC-Reg.

SIA/AP/MI  
N/404891  
/2022;

**Category : B2**

The project proposal is for mining Ordinary Sand in an area of 4.95 Ha with a proposed production quantity of **Ordinary Sand Mine -49,400 m<sup>3</sup>/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (<250 ha of mining lease area in respect of non-coal mine lease).

The representative of the project proponent of **M/s. Jai Prakash Power Ventures Limited, Kadapa** and their RQP **Dr. Vijay Kumar** have attended the meeting.

The Committee noted that as per the cluster letter issued by the Asst., Director of Mines & Geology, **Eluru**, vide Letter dated: 15.10.2022, there are no existing sand reaches within the radius of 500 mtrs area.

The project falls under B2 category

The proponent volunteered to allocate funds at least 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Mukkamala** Village as a part of Corporate Social Responsibility (CSR) activity.

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for Semi Mechanised method with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The boundary pillars shall be erected with geo co-ordinates marked on them.
5. No sand mining shall be done during the rainy season.
6. The ramp ( i.e., approach road) shall be removed after sand mining is completed.
7. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed.
8. The mine operator shall not carry mining more than 1 meter depth in compliance
