

**PROCEEDINGS OF THE MEETING OF STATE LEVEL EXPERT APPRAISAL
COMMITTEE, ODISHA HELD ON 24.05.2017**

The SEAC met on 24.05.2017 at 03:00 PM in the Conference Hall of Odisha State Pollution Control Board, Bhubaneswar under the Chairmanship of Dr. Bijay Ketan Patnaik. The following members were present in the meeting.

- | | | |
|-----------------------|---|----------|
| 1. Dr. B. K. Patnaik | - | Chairman |
| 2. Sri B. C. Prusty | - | Member |
| 3. Dr. D. K. Rout | - | Member |
| 4. Sri S. Behera | - | Member |
| 5. Dr. S. C. Nayak | - | Member |
| 6. Sri A. C. Mohanty | - | Member |
| 7. Dr. S.K. Biswal | - | Member |
| 8. Dr. D. Swain | - | Member |
| 9. Prof. P.K. Mohanty | - | Member |
| 10. Sri B. P. Singh | - | Member |
| 11. Dr. R.C. Mohanty | - | Member |

A. CONSIDERATION OF MINOR MINERAL PROPOSALS:

The committee verified 33 nos. of minor mineral proposals forwarded by the SEIAA, Odisha on the basis of amended EIA notification dated 15.01.2016. The case-wise proceedings and observations of the committee are detailed in **Table** as per **Annexure – A**. The proposals of following categories are:

Sl. No.	Type of proposals	No. of proposal	Decisions of the committee
1.	River Sand (24)	15	The committee considered the proposals as B2 category and recommended for Environmental Clearance.
		08	Clarification sought by the committee.
		01	EC rejected by the committee.
2.	Stone and other (09)	01	The committee considered the proposals as B2 category and recommended for Environmental Clearance.
		08	Clarification sought by the committee.

Secretary, SEAC

B. CONSIDERATION OF OLD PROPOSAL (COMPLIANCE RECEIVED)

1. PROPOSAL FOR EC OF M/S. EMAMI CEMENT LTD FOR ESTABLISHMENT OF A CEMENT GRINDING UNIT OF CAPACITY 2.0 MTPA AT MANATIRA VILLAGE, KALINGANAGAR INDUSTRIAL COMPLEX, TAHASIL-DANAGADI OF JAJPUR DISTRICT (EC).

M/s Emami Cement Limited has proposed to setup 2.0 MTPA Cement Grinding Unit At-Kalinganagar Industrial Complex, Tehsil- Danagadi, Jajpur district, Odisha. The proposed project sites Latitude & Longitude are 20° 55' 14.34"N & 86° 02' 38.37"E. No National Park/wild life sanctuary is involved in setting up plant within 10 km radius of the project site. The site is about 10 km away from nearest town Duburi. Nearest railway station Jakhapura is 2.16 km away from the proposed project site in South East direction. Nearest airport is Bhubaneswar about 77.5 km away from the proposed project site. Total proposed project area is 66.25 Acre. Total land has been acquired through IDCO. Total Project Cost is Rs. 401.00 Crore. A budget of Rs. 1244.6 Lakhs and Rs. 63.4 Lakhs are earmarked towards Capital cost and Recurring cost per annum respectively. A budget of Rs. 2005.00 lakhs has been envisaged for CSR activities. This proposed project is listed at S.N. 3(b) Category 'B' under Cement Plants at the State level.

Terms of Reference was issued by SEAC to M/s Emami Cement Limited vide Letter No. 356/SEAC -04 dated 19th May 2016. The baseline data has been collected during Pre-Monsoon Season (15th March 2016– 14th June 2016). Public Hearing has been conducted on 22.02.2017 and accordingly Final EIA report has been prepared.

The unit has proposed to produce Portland Slag Cement (PSC), Portland Pozzolana Cement (PPC), and Ordinary Portland Cement (OPC) of capacity 2.0 MTPA. Clinker, Gypsum, BF Slag, Fly Ash and Limestone are the major raw materials for the proposed project.

Gaseous emission will be controlled by installing air pollution control equipments. Dust suppression will be done by water sprinkling to control fugitive emissions due to transportation activities. Water sprinkling will be done along the haul roads to control dust arising from vehicular movement. Suitable type and capacities of bag filters will be envisaged for the deducting system at Raw material handling points.

Total water requirement for the proposed project is of 300m³/Day which will be sourced from IDCO water supply. Total power requirement for the proposed project is 15000 KVA which will be sourced from New Duburi Switchyard at Kalinganagar. No Waste water will be generated from the process

Domestic waste water will be treated in septic tank and discharged to soak pit. Zero discharge norms will be maintained in the proposed plant. Dust from APC devices and Ash generated from Hot Air Generator will be reused in process. Sludge from RWTP will be used for landscaping. Green belt will be developed in 23.2 Acres of the total plant area. Earmuffs/earplugs will be provided to workers working in high noise prone areas.

The **Consultant M/s. Visiontek Consultancy Services Pvt. Ltd, Bhubaneswar** made a detailed presentation on 19.04.2017 on behalf of the project proponent. The SEAC decided to take decision on the proposal after receipt of the certain information / documents. The proponent has furnished the same and the SEAC verified the same as follows.

Secretary, SEAC

Sl. No.	Information Sought by SEAC	Compliance furnished by the proponent	Views of the SEAC
1.	Details of the Wire house for storage of raw-materials and pollution control measures.	They will use Clinker, Fly ash, Slag, Gypsum & Limestone as raw material & Coal as fuel for manufacturing cement at the proposed site. The detail of raw material & Coal storages along with their pollution control measures and relevant drawings have been furnished.	Complied
2.	Inversion Profile Data (as per modeling).	Detailed Inversion Profile Data has been furnished.	AM and PM mixing heights provided are verbatim same for all days. It may be explained how this could happen.
3.	The cost component for green belt development as shown in the project report appears to be at higher side.	Detailed revised cost breakup of green belt development for plant premises & peripheral area has been furnished.	Complied.
4.	The present health condition in the area and possible health hazard due to this cement plant.	Data collected from 2 nos. of Government Public Health Centres (PHCs) at Jajpur regarding present health condition in the area along with possible health hazard due to the cement plant and submitted.	Complied.
5.	Surface runoff management plan.	Detailed Surface runoff management plan showing surface runoff from both inside as well as outside of the plant area along with detailed drainage system drawing has been furnished.	Complied.
6.	Rain water harvesting plan	Detail Rain water harvesting plan has been furnished.	Complied.

The SEAC in its meeting held on 17.05.2017 decided to consider the proposal after receipt of the following from the proponent:

1. AM and PM mixing heights provided are verbatim same for all days. It may be explained how this could happen.

The proponent has furnished the detailed AM and PM mixing heights as per above observation of the SEAC.

Secretary, SEAC

Considering the information furnished by the proponent and presentation made by the **Consultant M/s. Visiontek Consultancy Services Pvt. Ltd, Bhubaneswar** on behalf of the project proponent, the SEAC recommended for grant of environmental clearance for the project valid for a period of 07 years with stipulated conditions as per **Annexure – I**.

Secretary, SEAC

CONDITIONS TO BE STIPULATED IN ENVIRONMENTAL CLEARANCE OF M/S EMAMI CEMENT LTD. FOR ESTABLISHMENT OF A CEMENT GRINDING UNIT OF CAPACITY 2.0 MTPA AT MANATIRA VILLAGE, KALINGANAGAR INDUSTRIAL COMPLEX, TAHASIL-DANAGADI OF JAJPUR DISTRICT (EC).

A. SPECIFIC CONDITIONS:

1. The project proponent should install 24x7 air monitoring devices to monitor air emissions, as provided by the CPCB and submit report to the SEIAA, Odisha and Regional Office, MoEF&CC, Bhubaneswar.
2. The Standards issued by the MoEF&CC, Govt. of India vide G.S.R. No. 612 (E) dated 25th August, 2014 and subsequent amendment dated 9th May, 2016 and 10th May, 2016 regarding cement plants with respect to particulate matter, SO₂ and NO_x shall be followed.
3. Continuous stack monitoring facilities to monitor gaseous emissions from the process stacks shall be provided. Limit of PM shall be controlled to meet prescribed standards by installing adequate air pollution control viz Electrostatic precipitators to clinker cooler, bag house to raw mill/kiln and bag filters to coal mill and cement mill. Low NO_x burners shall be provided to control NO_x emissions. Regular calibration of the instruments must be ensured.
4. The National Ambient Air Quality Standards issued by the MoEF&CC, Govt. of India vide G.S.R. No. 826(E) dated 16th November. 2009 shall be followed.
5. Secondary fugitive emissions shall be controlled and shall be within the prescribed limits and regularly monitored. Guidelines/Code of Practice issued by the CPCB in this regard shall be followed.
6. Arsenic and Mercury shall be monitored in emissions, ambient air and water.
7. All the raw materials shall be stored under covered shed (as proposed) to control fugitive emission.
8. Efforts shall be made to reduce impact of the transport of the raw materials and end products on the surrounding environment including agricultural land by the use of conveyors/rail mode of transport wherever feasible. The company shall have separate truck parking area. Vehicular emissions shall be regularly monitored.
9. Efforts shall be made to further reduce water consumption by using air cooled condensers. All the treated wastewater shall be recycled and reused in the process and/or for dust suppression and green belt development and other plant related activities etc. No process wastewater shall be discharged outside the factory premises and 'zero' discharge shall be adopted.
10. Efforts shall be made to make use of rain water harvested. If needed, capacity of the reservoir shall be enhanced to meet the maximum water requirement. Only balance water requirement shall be met from other sources.
11. All the bag filter dust, raw mill dust, coal dust, clinker dust and cement dust from pollution control devices shall be recycled and reused in the process and used for cement manufacturing. Spent oil and batteries shall be sold to authorized recyclers / re-processors only.
12. Green belt over 33% of the total project area shall be developed within plant premises

Secretary, SEAC

with at least 10 meter wide green belt on all sides along the periphery of the project area and along road sides etc. by planting native and broad leaved species in consultation with local DFO, local community and as per the CPCB guidelines.

13. The project proponent shall provide for solar light system for all common areas, street lights, villages, parking around project area and maintain the same regularly.
14. The project proponent shall provide for LED lights in their offices and residential areas.
15. All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Cement plants shall be implemented.
16. At least 2.5% of the total cost of the project shall be earmarked towards the Enterprise Social Commitment (ESC) based on Public Hearing issues, locals need and item-wise details along with time bound action plan shall be prepared and submitted to the SEIAA, Odisha and Regional Office, MoEF&CC, Bhubaneswar. Implementation of such program shall be ensured by constituting a Committee comprising of the proponent, representatives of village Panchayat and District Administration. Action taken report in this regard shall be submitted to the SEIAA, Odisha as well as to the Regional Office, MoEF&CC, Bhubaneswar.
17. In addition to the above provision of ESC, the proponent shall prepare a detailed CSR Plan for the next 5 years including annual physical and financial targets for the project, which includes village-wise, sector-wise (Health, Education, Sanitation, Skill Development and infrastructure etc.) activities in consultation with the local communities and administration. The plan so prepared shall be based on SMART (Specific, Measurable, Achievable, Relevant and Time bound) concept. The expenditure should be aimed at sustainable development and direct free distribution and temporary relief should not be included. The CSR Plan will include the amount of 2% retain annual profits as provided for in Clause 135 of the Companies Act, 2013 which provides for 2% of the average net profits of previous 3 years towards CSR activities for life of the project. A separate budget head shall be created and the annual capital and revenue expenditure on various activities of the Plan shall be submitted as part of the Compliance Report to the SEIAA, Odisha and Regional Office, MoEF&CC, Bhubaneswar. The details of the CSR Plan shall also be uploaded on the company website and shall also be provided in the Annual Report of the company.
18. A Risk Assessment Study and Disaster Preparedness and Management Plan along with the mitigation measures shall be prepared with a focus of Disaster Prevention and a copy submitted to the SEIAA, Odisha, Regional Office, MoEF&CC, Bhubaneswar, SPCB and CPCB within 3 months of issue of environment clearance letter.
19. To educate the workers, all the work places where dust may cause a hazard shall be clearly indicated as a dust exposure area through the use of display signs which identifies the hazard and the associated health effects.
20. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

B. GENERAL CONDITIONS:

1. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board, Odisha.

Secretary, SEAC

2. No further expansion or modifications in the plant shall be carried out without prior approval of the SEIAA, Odisha.
3. At least four ambient air quality monitoring stations should be established in the downward direction as well as where maximum ground level concentration of PM₁₀, PM_{2.5}, SO₂ and NO_x are anticipated in consultation with the SPCB. Data on ambient air quality and stack emission shall be regularly submitted to the SEIAA, Odisha, Regional Office, MoEF&CC, Bhubaneswar and the SPCB/CPCB once in six months.
4. Industrial wastewater shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. The treated wastewater shall be utilized for plantation purpose.
5. The overall noise levels in and around the plant area shall be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (daytime) and 70 dBA (nighttime).
6. Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.
7. The company shall develop rain water harvesting structures to harvest the rain water for utilization in the lean season besides recharging the ground water table.
8. The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc.
9. Requisite funds shall be earmarked towards capital cost and recurring cost/annum for environment pollution control measures to implement the conditions stipulated by the the SEIAA, Odisha as well as the State Pollution Control Board, Odisha. An implementation schedule for implementing all the conditions stipulated herein shall be submitted to the Regional Office, MoEF&CC, Bhubaneswar. The funds so provided shall not be diverted for any other purpose.
10. A copy of clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parishad/Municipal Corporation, Urban Local Body and the local NGO. if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the web site of the company by the proponent.
11. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the MOEF&CC at Bhubaneswar, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; PM₁₀, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
12. The project proponent shall also submit six monthly reports on the status of the compliance of the stipulated environmental conditions including results of monitored data (both in hard copies as well as by e-mail) to the Regional Office of MOEF&CC, Bhubaneswar, the respective Zonal Office of CPCB and the SPCB. The Regional Office

Secretary, SEAC

of MoEF&CC at Bhubaneswar / CPCB / SPCB shall monitor the stipulated conditions.

13. *The* environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental conditions and shall also be sent to the Regional Office of the MOEF&CC at Bhubaneswar by e-mail.
14. The Project Proponent shall inform the public that the project has been accorded environmental clearance by the SEIAA, Odisha and copy of the clearance letter is available with the SPCB and may also be available in the Website of the SEIAA, Odisha. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same should be forwarded to the Regional office, MoEF&CC, Bhubaneswar as well as State Pollution Control Board, Odisha.
15. Project authorities shall inform the SEIAA, Odisha as well as the Regional Office, MoEF&CC, Bhubaneswar, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work.
16. The SEIAA, Odisha may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
17. The SEIAA, Odisha reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
18. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous & Other Wastes (Management And Transboundary Movement) Rules, 2016 and the Public (Insurance) Liability Act, 1991 along with their amendments and rules.
19. Any appeal against this clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
