2.	19-Jul-16	06.06.17	57578/1 676- NCM/07 -2016	Bhatakhalli Stone Quarry Over An Area Of 7.145 Ha At Village- Bhatakhalli, Tahasil-Polasara, Dist-Ganjam of Sri Rabi Narayan Padhi.	Stone	Ganjam	Polasara	The SEAC in its meeting held on 18.10.2016 observed the following: 1. The EMP submitted for the cluster is observed to be a summation of the individual facts lacking the wholistic approach appropriate for the cluster. 2. EMP prepared for cluster does not provide a map showing individual mines, dump position, drainage, haulage road, distance from population etc. 3. EMP does not provide location of the points where monitoring will be taken up. 4. EMP has not estimated the difficulties caused to population, domestic animals grazing and appropriate mitigative measures. 5. The EMP with cluster approach needs to be prepared with proper study. The study shall be carried out taking the	Tahasildar was asked to submit modified EMP with an Executive Summary at the beginning, but the same has not been furnished. Mitigative measures proposed to minimize the impacts on environment should have been spelt out in the said executive summary. Tahasildar may be asked to comply with the same.

								combined impact of all the mines in cluster with adequate mitigative measures. After detailed discussion the SEAC decided to consider the case after the proponent submit a modified EMP with cluster approach prepared with proper study. The proposal was placed in 164 th meeting of SEIAA and was decided that as suggested by SEAC, PP/Tahasildar may be asked to submit modified EMP in the cluster approach, rectifying and attending to the omissions and deficiencies pointed out by SEAC. Also, an executive summary shall be furnished at the beginning of the EMP narrating briefly the likely environmental impact of the project and mitigative measures for minimizing the impacts. Now the tahasildar has submitted the necessary clarification.
