J&K UT LEVEL EXPERT APPRAISAL COMMITTEE (JKEAC)

Department of Ecology, Environment & Remote Sensing

SDA Housing Colony, Bemina, Srinagar, Kashmir

Email: seacers@gmail.com, Website: www.parivesh.nic.in

MINUTES OF MEETING

MINUTES OF 89TH MEETING OF THE JK EXPERT APPRAISAL COMMITTEE HELD ON 17TH OF MARCH, 2022 VIA VIDEO CONFERENCING

In pursuance to Meeting Notice issued vide No: EAC/JK/22/13025-13047 dated: 11/03/2022, the 89th Meeting of JK Level Expert Appraisal Committee (JKEAC) was held on 17th of March, 2022 at 20:00 Hrs via video Conferencing. The following attended the meeting:-

No.	Name	Designation
1	Mr. S.C. Sharma, IFS(Rtd.)	Chairman
2	Mr. M.A. Tak, IFS(Rtd.)	Member
3	Engineer B.B. Sharma	Member
4	Mr. Irfan Yasin	Member
5	Prof. Anil Kr. Raina	Member
6	Mr. G.M. Dar	Member
7	Mr.Humayun Rashid	Secretary

The Secretary, JKEAC welcomed the Chairman, Members of the JK Expert Appraisal Committee, project proponents and the consultants.

The meeting proceeded as per following sequence: -

AGENDA ITEM NO: 01

Title of the Case	Grant of Environmental Clearance (EC) for RBM (River Bed Mineral) Minor Mineral Block Mining Project, Area of 7.87 Ha Block – 08 at village: soaf shali, tehsil: kokernag, district: Anantnag, JAMMU & KASHMIR (UT). favouring M/S Imitiyaz Ahmad Bhat S/o Mr. Ghulam Mohiuddinn Bhat R/o Kandikoot sagam Booch, District – Anantnag, J&K anantnag08block@gmail.com
Type of Project (Whether mining lease / STP/ Quarry Licence/ Brick Earth Mining/ construction)	River Bed Mining Lease
Category(B1/B2)	B1
Proposal Number	SIA/JK/MIN/59136/2020, SIA/JK/MIN/240202/2021

File Number	SEAC/JK/20/483
Name of Consultancy with date of validity	Cognizance Research India Private Ltd. Valid till: 01/05/2022
Presenter representative of consultant	Ms Anjali
Project Proponent/ Representative of Project Proponent	M/S Imitiyaz Ahmad Bhat

CASE SUMMARY

Status	Area (ha)	Bid Cost (in lacs)	Project Cost (in lacs)	EMP cost proposed		CER budget proposed (in lacs)
				CAPITAL (in lacs)	RECURRING (in lacs)	
New project	7.87	70.40	132.35	6.71	6.71	2.67

Mine Closure lacs plan proposed (in lacs)	Revised Mining depth proposed in PFR/EIA (mts.)	Haulage Route (km)	Revised Bulk density proposed in PFR/EIA (mts.)	Cluster situation (Yes/No)
1.5	1.00	0.75	2.00	No

PROJECT EVENT DATES

Date of Letter of Intent (LoI)	LoI –Date of Extension, if any	LoI Date of Validity	Date of Mining Plan approval	ToR s granted on, if applicable
21/07/2020	28/12/2021	31/03/2022	19/09/2020	01/04/2021

G.O 76JK-FST of 2020 dated 29/07/2021 implemented by JKEIAA for the project on	Previous Project proponent	Baseline data Collection by (previous) project proponent as the case may be	Public Hearing held on	Case Discussed by JKEAC earlier on	Area reduced by G&M Dept.

APPRAISAL PROCESS

(To be filled by JKEAC during online appraisal)

STATUS OF DOCUMENTATION

S. No.	Document	Status	Remarks of the Committee
1	Form 1/Form 2 /Form 1-M as applicable	Submitted	Submission of Form 2
2	Pre- Feasibility report (PFR)	Submitted	
3	Approved Mine Plan	Submitted	Mine Plan needs to be revised for mining block area, mining depth, closure plan, surface plan, targeted mineral production, mining methodology etc.
4	District Survey Report	submitted	Needs revision for including replenishment data etc.
5	(Environmental Management Plan/ Corporate Environmental Responsibility (EMP/CER)	Formulated but needs revision	Needs revision as per deliberations/ observations /recommendations

NO OBJECTION CERTIFICATES

S. No.	Department	Mining Block Recommended/ Not recommended	Remarks/ Reference
1	Irrigation Dept.	Issued conditionally	
2	Flood Control Dept.	Issued conditionally	
3	Fisheries Dept.	Issued conditionally	
4	Forest Dept. (if required)	Issued as non-forest land	
5	Wildlife Protection Dept (If required)	Issued conditionally	
6	Pollution Control Board	Issued conditionally	
7	Revenue Dept.	State Land	
8	PHE Dept.	Issued conditionally	
9	Soil Conservation Dept.	-	

ENVIRONMENTAL MANAGEMENT PLAN

S. No	Proposed actions	Budget proposed by Proponent (in lacs)		Remarks
		Capital	Recurring	
1	Green belt development	2.00	1.00	
2	Haulage route construction/ maintenance	2.00	1.00	
3	Pollution control/ Dust suppression	1.00	1.00	
4	Pollution monitoring	0.00	1.00	
5	Environmental awareness	0.00	1.00	
6	Occupational Health & safety of mine workers	1.71	1.71	
7	Laying of Hume pipes/ Flood protection/ protection of kuhls/canals	0.00	0.00	
	Total	6.71	6.71	

COORPORATE ENVIRONMENT RESPONSIBILITY

S.No.	Project activity	Activities	Budget proposed by Proponent (in lacs/year)
1	Health/ drinking water facility	Free Distribution of medicines, health check-up / installation of hand pumps	0.89
2	Electrification	Solar Lamp distribution & Solar Street light installation	0.89
3	Sanitation	Construction of ladies' toilets in the primary School nearby village.	0.00
4	Education	Renovation work (floor/ walls/ roofs repairing nearby at Nearby Schools	0.89
5	Rain water harvesting structure	Construction of Rain water harvesting structure in the primary School nearby village.	0.00
6	Improvement of local Environment	Development / maintenance of Recreation Park/green space	0.00
	Total		2.67

BUDGET FOR SURVILIENCE

S. No.	Particulars	Budget proposed by Proponent (in lacs)		Remarks
		Capital	Recurring (in lacs)	
1	Transport Permit	0.00	0.00	
2	CCTV Camera	0.00	0.00	
3	Weight Bridge	0.00	0.00	

4	Personal Computer with power backup	0.00	0.00	
5	Mobile Application Barcode scanner	0.00	0.00	
6	Radio Frequency Identification Tag (RFID) and GPS	0.00	0.00	
7	Annual Audit of lease	0.00	0.00	
8	Security Guard	0.00	0.00	
	Total	0.00	0.00	

GENERAL PUBLIC HEARING CONCERNS

S. No.	Usual concerns expressed by public during proceedings	(Yes/No)
1	Mining should be socio economic friendly and Biodiversity should be preserved	Yes
2	Manual mining & Employment to the local unemployed youth	Yes
3	Irrigation channels should be protected bunds should be constructed, electricity should be provided, roads should be metaled, drinking water supply should not be hampered during mining activity.	Yes

OBSERVATION IN RESPECT OF MINING SITE WHEN VIEWED ON MULTIDATE GOOGLE EARTH IMAGE PLATFORM USING KML /KMZ FILE EMAILED/UPLOADED BY THE PROJECT PROPONENT/CONSULTANT

S.no.	Features observed	Within Mining site boundary (Yes/No)	Outside mining site boundary (Yes/No)	Upstream from mining block (Mts.)	Downstream From mining block (Mts.)	Remarks
1	Features indicative of any Illegal mining.	Yes	Yes			As per latest available google image of 11/2020
2	Bridge with midstream piers, if any, located within mining area/ within 500 mts. from the ends of mining block.	No	No			
3	Bridge with only abutments, if any, located within mining area/ within 500	No	No			

	mts. from the ends of mining block.					
4	Foot bridge with only abutments on two banks, if any located within mining area/ within 500 mts. from the ends of mining block.	No	No			
5	Green patch (Cropland / trees /orchard etc. if any located within mining block/adjacent to mining block or within 500 mts. from the mining block.	Yes	Yes			Presumably of an agricultural Plantation and cultivable land
6	Structures of any kind (buildings /Flood control/ protection works/ electric installations, if any located within/adjacent/ in close vicinity to mining block or within 500 mts. of the mining block.	No	No	-	-	-
7	Irrigation canal headworks/ khul inlets, if any located within mining block or within 500 mts. of the mining block.	Not identifiable	Yes	-	-	Features suggestive of an irrigation offtake point.

8	Active water channels, if any crossing the mining block.	Yes	Yes			Area under active water channel needs to be excluded
9	National Park/Wildlife Sanctuary/ESZ, if any located in close vicinity of the mining block and distance thereof from the mining block.	-	-	-	-	
10	Forest land, if any located in close vicinity of the mining block. If yes, the distance thereof from the ends of mining block.	-	-	-	-	
12	Any other relevant feature of interest or condition which is critical to grant of ToRs/EC to the proposed project	-	-	-	-	

DELIBERATIONS/SPECIFIC OBSERVATION(S) OF COMMITTEE, IF ANY:

- a) The case had been discussed by the Expert Appraisal Committee earlier during the 32nd Meeting held on 01/04/2021 during which the Committee recommended the project for Grant of Terms of Reference subject to title verification in view of presence of cropland within the identified mining block.
- b) The case was forwarded again by JKEIAA for appraisal for grant of EC under B2 category as the project proponent had got the mining block resized from 7.87 Ha to 2.0 Ha vide G&M Dept. letter No.MSK/DGM/Sgr/F-14/B-08Ang / 6041-43 dated 18/11/2021 with a cluster certificate issued under No.MSK/DGM/Sgr/F-14/B-08Ang / 6072 dated 22/11/2021. However, the Committee questioned the wisdom of resizing the mining block without any reason and desired prior compliance to following points for further consideration of the project:-
 - i. Justification for resizing the mining block from 7.78 Ha to 2Ha be obtained from the competent authority of G&M Dept.
 - ii. The PP should submit clarification from the concerned Xen Irrigation Dept. stating that off-take points did exist within the original mining

block (7.87Ha) boundary but do not now exist within 200m upstream and downstream of the resized mining block (2 Ha).

- iii. Title verification of the resized mining block be obtained from the concerned competent revenue authority.
- c) Now reverting back from his exercise of resizing the block, the PP is again asking for appraisal of the mining block with original area of 7.87Ha under B1 category and has also got the earlier letter of resizing issued by G&M Dept. vide No. 890/MCC/DGM/B-8/Ant/20/2083-84 dated 11/02/2022 revoked.
- d) PP has also replaced the consultant M/S Atmos Sustainable Solutions Pvt. Ltd. with M/S Cognizance Research India Private Ltd.
- e) With respect to item ii, supra, the PP has submitted communication from the Executive Engineer, Irrigation Division, Anantnag vide letter No. IDA/5306-07 dated 16/02/2022 where under, it has been mentioned that there **is no irrigation off-take point within 200m of the resized mining block of 2Ha.**
- f) **Committee is not able to comprehend the motive of PP in first getting the mining block resized from 7.87 Ha to 2 Ha and then seeking clearance for the original mining block with size of 7.87 Ha based on the Irrigation Depts. NOC granted for the resized block of 2 Ha. This needs to be explained by the proponent.**
- g) **As such the consultant /PP was asked to obtain fresh clarification from the Executive Engineer, Irrigation Division, Anantnag mentioning therein that no off-take point of any irrigation canal/kuhl or zamandari kuhl lies either within the mining block or within 200m from the periphery of the mining block of original area 7.87 Ha to proceed further with the appraisal process.**
- h) With respect to item No.iii, it was observed by the Committee that there is a contradiction in title verification of the said block area as depicted in the two letters issued by Tehsildar concerned vide letter No. 844/MM/Abng dated 29/12/2021 and letter No.1487/MM/Ang dated **14/03/2022**, whereby the first letter categorises the area under mining block as shamlat and the second letter defines it as state land. **The Committee therefore, desired that the PP should obtain clarification from the concerned Assistant Commissioner (Revenue), mentioning the actual classification of the land under the mining block, especially in view of the observation of the Committee based on Google Earth Image about the existence of cropland within the mining block.**
- i) **The ToR condition relating to submission of photographs of display screen of the air quality monitoring station showing data with dates of collection of the baseline data has not been submitted in the EIA report and the same needs to be submitted.**
- j) Revision of the mining plan with mine closure plan, revised mining depth, revised surface area plan, targeted mineral production and replenishment and its denovo approval by the competent authority.

RECOMMENDATION OF THE COMMITTEE

- a) In view of the above deliberations / observations made by the Committee herein above, the Expert Appraisal Committee did not agree to recommend the case for EC in the present form.
- b) The PP if he so desires, is however, free to again approach, JKEIAA for consideration of the case after submitting compliance to the observations made herein above.

AGENDA ITEM NO: 02

Title of case:	Grant of Environmental Clearance (EC) for the Minor Mineral Block 2/4, Revised area 5.40 Ha in Nowshera Tawi River, Downstream Muradpur Bridge, Village Narian, District Rajouri, Jammu and Kashmir in favour of Shri Karanvir Singh S/O Shri Surinder Singh.
Project type (whether mining lease/STP/ Quarry license/brick earth)	Mining Lease
Category(B1/B2)	B1
Proposal no:	SIA/JK/MIN/60806/2021

8	Active water channels, if any crossing the mining block.	Yes	Yes	-	-	Need to be excluded from mining activity
9	National Park/Wildlife Sanctuary/ESZ, if any located in close vicinity of the mining block and distance thereof from the mining block.	No	No	-	-	
10	Forest land, if any located in close vicinity of the mining block. If yes, the distance thereof from the ends of mining block.	No	No	-	-	

12	Any other relevant feature of interest or condition which is critical to grant of ToRs/EC to the proposed project	No	No	-	-	
-----------	---	----	----	---	---	--

DELIBERATIONS/SPECIFIC OBSERVATION(S) OF COMMITTEE, IF ANY:

- a) The project had earlier been discussed during 28th meeting held on 10.03.2021 during which the committee recommended grant of ToRs in favour of the project subject to prior NOC from competent authority in Forest Dept. and to resize/reduce the area near the corner so that the forest land, if it is so, is excluded.
- b) The case was again discussed during the 69th meeting held on 05.11.2021 during which the committee had not agreed to recommend the case for the grant of EC and had asked the PP to submit compliance to following observations:
 - i. NOC from Forest Dept. mentioning the coordinates of and distance between the nearest pillar of forest boundary to the pillar-A of the mining block.
 - ii. Submission of title verification of the land under the mining block.
 - iii. Clarification from the concerned Xen Irrigation Dept. w.r.t presence or absence of irrigation off-take points within 200m from the mining block.
 - iv. To submit Colour Google image of the area depicting the mining block boundary and Kuhl off-take points, if any within 200m of the mining block boundary.
 - v. Exclusion of active water channel while calculating the targeted mineral production.
 - vi. Submission of non-involvement in illegal mining activity certificate from the competent authority.
 - vii. Submission of photographs of display screen of Air Quality Monitoring Station displaying the dates of collection of baseline data.
 - viii. Revision of project cost.
 - ix. Revision of EMP budget.
 - x. Submission of revised mining plan.
 - xi. Mining depth be restricted to max.1m and bulk density to 2 in absence of actual field measurements.
- c) During deliberations in the instant meeting, the Committee observed as: -
 - i. With respect to item i, the PP has submitted NOC issued by the DFO, Nowshera Forest Division, vide letter No. DFO/NSR/1836-37 dated 14/12/2021 which states that after joint verification of the mining block No. 2/4 Nowshera, it is certified that no forest land is involved in the said mining block No. 2/4. However, the pillar-A of the said mining block bearing geo-coordinates (N 33.23211, E 74.27787) is 230 m (approx.) away from the nearest boundary of the forest land in forest compartment No. 140/N bearing geo-coordinates (N 33.23411, E 74.27908) and the pillar-D of the said mining block bearing geo-coordinates (N 33.23099, E 74.26892) is 480 m (approx.) away from the

- nearest boundary of the forest land in forest compartment No. 140/N bearing co-ordinates (N 33.23212, E 74.26892).
- ii. With respect to item ii, the PP has submitted title verification issued by Deputy Commissioner, Rajouri verifying the title of the mining block as state land.
 - iii. **With respect to item iii, the Executive Engineer (I&FC Division) Nowshera, vide letter No. I&FCN/2815/16 dated 24/11/2021 states that the source of Kuhl namely Narian Kuhl i.e, head site is within average distance of 100 m under the proposed/ approved action plan for the minor mineral block No. 2/4, Nowshera and which is less than the permissible limits. He has further suggested that the said block may be reduced/ shifted to downstream side from the actual proposed location for a distance of 200 m away from the head site of the supply channel.**
 - iv. **With respect to item iv, the PP has submitted Colour Google image of the area with seal & sig. of Executive Engineer (I&FC Division), which clearly depicts Narian Irrigation Kuhl lying in close proximity of the mining block 2/4.**
 - v. The Committee while observing the mining block on Google image desired that the block subset B should be rejected as it may have adverse impact on the kuhl. However, subset-A can be further resized to 2 Ha to maintain a safe distance of 200m to the offtake point of Narian Irrigation kuhl and fresh certification for the resized mining block comprising of total area of 2 Ha be obtained from the Xen Irrigation Dept. stating therein that the resized mining block of 2.0Ha is 200m away from the Irrigation offtake points, **prior to grant of EC.**
 - vi. With respect to item v, the PP needs to exclude the active water channel portion from the subset block A (2 Ha), **prior to grant of EC.**
 - vii. With respect to item vi, the PP has submitted the report from Multi Dept. District level Task Force (MDLTF) cell, which states that the PP is not involved in any kind of illegal mining activity in and around the mining block.
 - viii. With respect to item vii, the photographs of display screen of Air Quality Monitoring Station displaying the dates of collection of baseline data have not been submitted and same needs to be submitted **prior to grant of EC.**
 - ix. With respect to item viii, the PP has revised the project cost.
 - x. With respect to item ix, the EMP budget has been revised. However, the same needs to be updated as suggested in the remark's column herein above, **prior to grant of EC.**
 - xi. With respect to item x, the revision of the mining plan is awaited and same needs to be submitted **prior to grant of EC.**
 - xii. With respect to item xi, the mining depth has been restricted to 1m & bulk density to 2 in the EIA report. However, same needs to be updated in the revised mining plan **prior to grant of EC.**

RECOMMENDATION OF THE COMMITTEE:

In view of the above deliberations and insight gained during the above cited appraisal process, the Committee recommended the case for the grant of environmental Clearance subject to: -

- a) Standard and Specific Conditions as per **Annexure B** to these Minutes of Meeting.
- b) **Further resizing of the mining block as per deliberations, prior to grant of EC.**
- c) Revision of mining plan as detailed above, **prior to grant of EC.**

- d) Submission of photographs of display screen of Air Quality Monitoring Station displaying the dates of collection of baseline data, **prior to grant of EC.**
- e) **Strict adherence to the terms and conditions of the NOCs of the stakeholder departments which need to be monitored by the enforcement agencies and concerned dept.**
- f) **No JCB / Excavators/ Bulldozers to be used in mining and no water course to be disturbed while transporting minor minerals.**
- g) Maximum targeted mineral production of **24000 MT.**
- h) Condition the geographical coordinates as per revised area conveyed by G&M Dept. are mentioned in the EC letter by JKEIAA.
- i) **Submission of compliance to all other observations made herein above under deliberations, prior to grant of EC.**
- j) Validity of only three years from the date of commencement of the mining operations duly certified by the District Mineral Officer concerned with intimation to the JKEIAA and JKPCB in view of non-availability of replenishment data.

AGENDA ITEM NO: 03

Title of case:	Grant of Environmental Clearance (EC) for River bed Mining Project of Minor Mineral in Block No.02, Revised Area (7.91) Ha at Tanda Seri Khad, District-Reasi, UT-Jammu & Kashmir in favour of M/S Sai Mines R/O Logate, Kathua, J&K. saimine.ec@gmail.com

GENERAL PUBLIC HEARING CONCERNS

S. No.	Usual concerns expressed by public during proceedings	(Yes/No)
1.	RBM material to locals on concessional rates	Yes
2	Manual mining & Employment to the local unemployed youth	Yes
3	Proper demarcation of mining block	Yes
4	PRI members should be consulted before opening of such mining blocks.	Yes
5	Mining operations should not be allowed near the bridge and safety distance should be maintained	Yes
6	Mining shouldn't be allowed near tube wells, banks of nallah or instream mining should not be allowed.	Yes
7	Maintenance of haulage route and proper plantation on both the bunds to protect it from soil erosion	Yes
8	Boundary pillars if damaged should be erected by the PP	Yes

9	Mining should not be allowed beyond the safety benches of 50 m on each side of nallah so that the adjoining lands and infrastructure can be safeguarded.	Yes
10	Ban on use of heavy machineries for mining operations	Yes
11	Construction of toilets, water spraying measures for dust suppression	Yes
12	CER/CSR Activities for developmental works of the village	Yes
13	Erection of proper geotagged boundary pillars at corner points of the mining block	Yes
13	Mining shouldn't be allowed in night hours	Yes

EXAMINATION OF MINING SITE ON MULTIDATE GOOGLE EARTH IMAGE PLATFORM USING KML /KMZ FILE EMAILED/UPLOADED BY THE PROJECT PROPONENT/CONSULTANT

S.no.	Features observed	Within Mining site boundary (Yes/No/Not identifiable)	Outside mining site boundary (Yes/No/Not identifiable)	Upstream from mining block (Mts.)	Downstream From mining block (Mts.)	Remarks

10	Forest land, if any located in close vicinity of the mining block. If yes, the distance thereof from the ends of mining block.	No	No	-	-	
12	Any other relevant feature of interest or condition which is critical to grant of ToRs/EC to the proposed project	No	No	-	-	-

DELIBERATIONS/SPECIFIC OBSERVATION(S) OF COMMITTEE, IF ANY:

- a) The case had been discussed by the Expert Appraisal Committee earlier during the 77th Meeting held on 11/12/2021 during which the Committee recommended the project for Grant of Terms of Reference subject to: -
- i. Title verification of the land under the mining block.
 - ii. Exclusion of active water channel from the mining block while calculating the targeting mineral production.
 - iii. Detailed chapter on haulage route/s proposed by the proponent after obtaining due consent of the owners of land and PRI.
 - iv. Revision of the mining plan with mine closure plan, revised mining depth, revised surface plan, targeted mineral production and replenishment and its denovo approval by the competent authority
- a) Now, the PP has again approached the JKEIAA for grant of EC after submitting the final EIA and Public hearing report.
- b) In compliance to the **Point No i.** the PP has submitted the Title verification from the concerned revenue authorities mentioning the said mining block as **State land.**
- c) In compliance to point no. ii, the PP has got the mining block resized to **7.91** ha from its original area of **8.16 ha** vide letter dated 07/01/2022 from the G&M Dept. to exclude the active water channel of the main river.

- d) With respect to point No. iii, the PP has submitted haulage route map but not in consultation with local PRI in accordance with the deliberations of previous meeting. Therefore, the Committee desired that the PP should submit consent of the land owners/PRI for transportation of RBM, **prior to grant of EC.**
- e) With respect to iv, the mining plan has not yet been revised in respect of mining depth, surface plan, area, bulk density etc. and the same needs to be revised **prior to grant of EC.**
- f) The Committee also desired that the PP should address all the genuine concerns of the locals raised during the public hearing.
- g) The JKEAC desired that the conditions of NOC need to be adhered to in letter and spirit under close supervision of stakeholder departments.
- h) **The ToR condition relating to submission of photographs of display screen of the air quality monitoring station showing data with dates of collection of the baseline data has not been submitted in the EIA report and the same needs to be submitted, prior to grant of formal EC.**
- i) Bulk density of 2.25 adopted in the instant mining plan were not agreed by the committee. Mining depth be restricted to max. 1m in aggregate and bulk density of 2.0 only be adopted for calculating the production targets in absence of actual field measurements.

RECOMMENDATION OF THE COMMITTEE

In view of the above deliberations / observations made by the Committee herein above, the Expert Appraisal Committee recommended the project for grant of EC subject to: -

- a) Standard and Specific Conditions as per **Annexure B** to these Minutes of Meeting.
- b) **Compliance to specific ToR condition relating to photograph of display screen showing dates of data collection as detailed above, prior to grant of EC.**
- c) Maximum targeted mineral production of 94900 MT.
- d) Condition the geographical coordinates as per revised area to be conveyed by G&M Dept. are mentioned in the EC letter by JKEIAA
- e) **Strict adherence to the terms and conditions of the NOCs of the stockholder departments which needs to be monitored by the enforcement agencies and concerned department.**
- f) **No JCBs/ Excavators/ Bulldozers to be used in mining and no water course to be disturbed while transporting minor minerals.**
- g) **Submission of compliance to all other observations made herein above under deliberations, prior to grant of EC.**
- h) Validity of only three years from the date of commencement of the mining operations duly certified by the District Mineral Officer concerned with intimation to the JKEIAA and JKPCB in view of non-availability of replenishment data.

AGENDA ITEM NO: 04

Title of case:	Grant of Environmental Clearance for minor mineral block 1/3, revised area 2.60 Ha in Nowshera Tawi River Downstream Muradpur Bridge, District Rajouri, UT of Jammu and Kashmir in favour of Shri Kiran Kumar Sharma S/O Shri Daleep kumar Sharma.

12	Any other relevant feature of interest or condition which is critical to grant of ToRs/EC to the proposed project	No	No	-	-	

DELIBERATIONS/SPECIFIC OBSERVATION(S) OF COMMITTEE, IF ANY:

- a) The case was discussed during the 32nd meeting held on 01/04/2021, 77th meeting held on 11/12/2021 and 82nd meeting held on 08/01/2022 under B1 category for grant of ToRs and finally the Committee had desired the mining block to be further resized taking into account the actual site conditions, obtaining fit for mining certificate from the G&M Dept. and reassessment of available minable reserves, besides clarification on title of the proposed area.
- b) The PP has now got the mining block resized to 2.60 Ha from original size of 8.95 Ha and has submitted a cluster certificate vide No.DMO/ML/2021-22/834-35 dated 04/02/2022 where under the DMO concerned informs the JD(J), G&M Department that despite cluster situation, the overall area is less than 5 Ha. Therefore the PP has submitted the case under B2 category.
- c) The PP has submitted the ***“Fit for mining certificate”*** issued by DMO, Rajouri vide letter No. DMO/R/ML/2021-22/836-837 dated 04/02/2022 which states that as per field observations of the Committee constituted, the revised area of 2.60 Ha mentioned in the enclosed site plan is **presently fit** for mining activities w.r.t availability of minor minerals.
- d) ***The above cited letters issued by the DMO stand duly endorsed by the Joint Director, G&M Dept., Jammu vide his letter No. 491-93 dated 10/02/2022.***
- e) The PP has submitted the title verification issued by Additional Deputy Commissioner, Rajouri vide letter No. DCR/2021-22/Acctt/775 dated 23/02/2022 which states that the revised area of block No. 1/3 (2.60 Ha) comprising Khasra No. 403,332 & 812 situated in village Saranoo Tehsil Rajouri **is state land.**
- f) The PP has submitted the report from the Multi Dept. District level Task Force (MDLTF) Cell which states that the PP is not involved in any kind of illegal mining activity in and around the mining block No. 1/3.

- g) The PP has submitted the Color Google image with seal & sig. of Executive Engineer, Irrigation Division, Rajouri stating that there is no Kuhl/channel/ Irrigation offtake point within 200 m of the resized block No. 1/3.
- h) The Committee observed presence of active water channels crisscrossing the mining block area leaving many scattered shoals which cannot be exploited without disturbing the normal flow of the nallah. Therefore, the PP needs to lay Hume pipes wherever crossing of the water creek is necessitated.
- i) Submission of revision of the mining plan with mine closure plan, revised area, revised mining depth, surface plan, targeted mineral production and replenishment and its *denovo* approval by the competent authority, prior to grant of EC.
- j) Mining depth of 3.0 m & bulk density of 2.25 adopted in the instant mining plan were not agreed by the committee. Mining depth be restricted to max. 1m in aggregate and bulk density of 2 be adopted in absence of actual field measurements.

RECOMMENDATION OF THE COMMITTEE:

In view of the above deliberations and insight gained during the above cited appraisal process, the Committee recommended the case for grant of Environmental Clearance subject to: -

- a) Standard and Specific Conditions as per **Annexure B** to these Minutes of Meeting.
- b) Revision of mining plan as per deliberations, **prior to grant of EC.**
- c) Mining of dry shoals only wherever available without disturbing the natural course of water.
- d) **Strict adherence to the terms and conditions of the NOCs of the stakeholder departments especially conditions laid by the Fisheries Department, Irrigation and Flood Control Dept. which need to be monitored by the enforcement agencies and concerned dept.**
- e) **No JCBs/ Excavators/ Bulldozers to be used in mining and no water course to be disturbed while transporting minor minerals.**
- f) Maximum targeted mineral production of **31,200 MT.**
- g) Condition that the geographical coordinates as per revised area issued by G&M Dept. are mentioned in the EC letter by JKEIAA.
- h) **Compliance of all other observations made herein above under deliberations, prior to grant of EC.**
- i) Validity of only three years from the date of commencement of the mining operations duly certified by the District Mineral Officer concerned with intimation to the JKEIAA and JKPCB in view of non-availability of replenishment data

ANNEXURE-B

STANDARD AND SPECIFIC CONDITIONS FOR GRANT OF ENVIRONMENTAL CLEARANCE WITH RESPECT TO RIVER BED MINING PROJECTS ON LEASE BASIS

STANDARD CONDITIONS :-

Statutory compliance

- 1) This Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court of J&K, Hon'ble NGT and any other Court of competent jurisdiction, as may be applicable.
- 2) The Project Proponent complies with all the statutory requirements and judgement of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.
- 3) The UT Government of J&K shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgement of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.
- 4) This Environmental Clearance shall become operational only after receiving formal NBWL Clearance from MoEF&CC subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.
- 5) This Environmental Clearance shall become operational only after receiving formal Forest Clearance (FC) under the provision of Forest Conservation Act, 1980, if applicable to the Project.
- 6) Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The mining activity shall not commence prior to obtaining Consent to Establish / Consent to Operate from the concerned State Pollution Control Board/COMMITTEE.
- 7) The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation), Act, 2015 and rules & regulations made there under. PP shall adhere to various circulars issued by Directorate General Mines Safety (DGMS) and Indian Bureau of Mines from time to time.
- 8) The Project Proponent shall obtain consents from all the concerned land owners, before start of mining operations, as per the provisions of MMDR Act, 1957 and rules made there under in respect of lands which are not owned by it.
- 9) The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IAJI (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".
- 10) A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.
- 11) State Pollution Control Board/COMMITTEE shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.

- 12) The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area.
- 13) The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/COMMITTEE and web site of the Ministry of Environment, Forest and Climate Change (www.environmentclearance.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.
- 14) The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred than mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.

Air quality monitoring and preservation

- 15) The PP shall generate data on air quality parameters PM10, PM2.5, NO2; CO and SO2 etc. as covered in the EIA Report covering the aspects of transportation, extraction, etc in the impact zone as per the site condition to ascertain the exposure characteristics at specific places and submit the same along with 6-monthly compliance report to concerned IRO. The data be also displayed prominently at the site.
- 16) Effective safeguard measures for prevention of dust generation and subsequent suppression by way of regular mechanical water sprinkling & other measures shall be carried out in areas prone to dust pollution including haulage route.

Water quality monitoring and preservation

- 17) In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.
- 18) Regular monitoring of springs in and around the mine lease shall be carried out and recorded maintained. Natural water bodies and or streams which are flowing in and around the project area should not be disturbed. The PP in consultation with concerned department shall regularly monitor the groundwater table in open dug well located in the nearby villages to ascertain the impact of mining over ground water table. PP shall submit Report on changes in Ground water level and quality shall be submitted on six-monthly basis to Regional Office of the Ministry, MoEF&CC, CGWA and State Groundwater Department / State Pollution Control Board.
- 19) The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The Project Proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations

without justification and prior approval of MoEFCC. The monitoring of water courses/bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.

Noise and vibration monitoring and prevention

- 20) The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.
- 21) The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.
- 22) The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.

Mining plan

- 23) The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation subject to changes recommended in the specific conditions herein below. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management , O.B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change, which entail adverse environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form to Short Term Permit (STP), Query license or any other name.
- 24) The Project Proponent shall get the Final Mine Closure Plan along with Financial Assurance approved from Indian Bureau of Mines/Department of Mining & Geology as required under the Provision of the MMDR Act, 1957 and Rules/ Guidelines made there under. A copy of approved final mine closure plan shall be submitted within 2 months of the approval of the same from the competent authority to the concerned Regional Office of the Ministry of Environment, Forest and Climate Change for record and verification.
- 25) The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the

monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.

Transportation

- 26) No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. *(In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated.)* All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers.
- 27) The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipment's like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.

Green Belt

- 28) The river bed mining projects involve extraction of sand, gravel and Bajri from dry river/ Nallah Bed and plantation in the 7.5 m buffer of the mine lease will mean plantation in between the river/nallah bed which will obstruct the natural flow of the river/nallah and might also lead to change in natural habitat of aquatic fauna. In lieu of the plantation on river bed the proponents will carry out plantation in the adjacent villages after due consultations with the PR/locals and the concerned DFO. Besides, the PP shall adhere to the conditions for green belt development as per ESR/CER/EMP strictly.
- 29) The Project Proponent shall carry out plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.

- 30) The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.
- 31) The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.
- 32) And implemented in consultation with the State Forest and Wildlife Department. A copy of Wildlife Conservation Plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry.

Public hearing and human health issues

- 33) The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines. The records shall be maintain properly. PP shall also carryout Occupational health check-ups in respect of workers which are having ailments like BP, diabetes, habitual smoking, etc. The check-ups shall be undertaken once in six months and necessary remedial/ preventive measures be taken. A status report on the same may be sent to MoEFCC Regional Office and DGMS on half-yearly basis.
- 34) The Project Proponent must demonstrate commitment to work towards 'Zero Harm' from their mining activities and carry out Health Risk Assessment (HRA) for identification workplace hazards and assess their potential risks to health and determine appropriate control measures to protect the health and wellbeing of workers and nearby community. The proponent shall maintain accurate and systematic records of the HRA. The HRA for neighbourhood has to focus on Public Health Problems like Malaria, Tuberculosis, HIV, Anaemia, Diarrhoea in children under five, respiratory infections due to bio mass cooking. The proponent shall also create awareness and educate the nearby community and workers for Sanitation, Personal Hygiene, Hand washing, not to defecate in open, Women Health and Hygiene (Providing Sanitary Napkins), hazard of tobacco and alcohol use. The Proponent shall carryout base line HRA for all the category of workers and thereafter every five years.
- 35) The PP shall periodically monitor health of all the workers involved at mining site as per the regulations of Mines act.
- 36) Periodical medical examination of the workers engaged in the project shall be carried out and records maintained. For this purpose, schedule of health examination of workers should be drawn and followed accordingly as per the regulations of Mines act. A First Aid Room shall be provided in the project both during construction and operations of the project.
- 37) The Project Proponent shall ensure that Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
- 38) Project Proponent shall make provision for the housing for workers/labors or shall construct labour camps within/outside (company owned land) with necessary basic

infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.

- 39) The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing, if applicable, shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.

Corporate Environment Responsibility (CER)

- 40) The activities and budget earmarked for Corporate Environmental Responsibility (CER) as per Ministry's O.M No 22-65/2017-IA. III dated 30/09/2020 or as proposed by EAC should be kept in a separate bank account. The activities proposed for CER shall be implemented in a time bound manner and annual report of implementation of the same along with documentary proof viz. photographs, purchase documents, latitude & longitude of infrastructure developed & road constructed needs to be submitted to Regional Office MoEF&CC annually along with audited statement.
- 41) Project Proponent shall keep the funds earmarked for environmental protection measures in a separate account and refrain from diverting the same for other purposes. The Year wise expenditure of such funds should be reported to the MoEFCC and its concerned Regional Office.

Miscellaneous

- 42) The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area and KML file for recording the base line data and closure time data (after three years) and submit a report to concerned Regional Office of the MoEFCC.
- 43) The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
- 44) The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.
- 45) A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC.
- 46) The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC officer(s) by furnishing the requisite data / information / monitoring reports.

SPECIFIC CONDITIONS: -

1	The Project Proponent must obtain NOCs from competent authority of all the concerned stake holder departments /Joint Inspection Report prior to grant of formal
---	---

	Environmental Clearance (EC). The EC shall be subject to strict compliance of conditions of the NOCs issued by the stake holder departments.
2	The cremation ground if any in the vicinity be properly demarcated and left undisturbed and its map showing geographical coordinates be submitted to JKEIAA before issuance of formal EC. Besides, map showing extraction route bypassing village settlements and agricultural/horticultural land as far as possible be submitted to the JKEIAA before formal grant of EC.
3	The maximum exploitation of the RBM from the mining block shall be as per approved mining plan or <u>as per revised mining plan to be approved by competent authority <i>denovo</i></u> within the prescribed area and depth recommended by the JK Expert Appraisal Committee, as the case may be and <u>whichever is less</u> . Mining depth mentioned above the recommended depth by JKEAC, if mentioned anywhere in any of the submitted documents whether by mistake or otherwise, shall be treated as omitted.
4	A green belt shall be developed under close supervision of the local panchayat.
5	The river bed material shall be sold to the local population within radial distance of 2 kms from the mine site for residential construction purpose at 50% concessional rates.
6	The formal lease shall be granted only after the Project Proponent deposits the funds earmarked under EMP / CER in a separate account to be opened for the purpose and funds be utilized in coordination with DFO, Social Forestry Dept. and concerned Chief Medical Officer (CMO) under supervision of local Panchayat Head. The funds earmarked for CSR shall also be utilized in accordance with CSR Policy Rules.
7	All the provisions of Minor Mineral Rules sanctioned under SRO105 with all amendments with respect to pertinent provisions of the legal framework relating to progressive mine closure shall be complied by the Project Proponent.
8	This Environmental Clearance is subject to final outcome of any litigation pending before Hon'ble Supreme Court of India, Hon'ble High Court of Jammu & Kashmir, Hon'ble NGT, or any other Court of Law, if any, as may be applicable to this project.
9	This Environmental Clearance is without prejudice to the standing instructions /orders from the competent authorities in the MoEF&CC, GoI and the UT of J&K w.r.t river bed mining activity.
10	An inspection Committee comprising of Additional Dy. Commissioner, District Mineral Officer, representative of Pollution Control Board, Executive Engineer Irrigation & Flood Control Dept., Executive Engineer, PHE(Jalshakti) Dept. and District Fisheries Officer shall monitor the implementation of the EMP and also certify at the end of each monsoon, that sufficient replenishment of the minor mineral has taken place during monsoon and further mining in the mining block shall not adversely affect the hydrological and ecological settings in the area.
11	The Project Proponent shall take all precautionary measures during mining operations for conservation and protection of endangered fauna and flora in the area.
12	Masks and PPE shall be provided to the workers in view of COVID-19.
13	Social distancing norms and other standard operating procedures relating to COVID-19 shall be followed during mining activity.
14	The plan worked out and expenditure made under Occupational Health should be undertaken in consultation with the Local Health Institution/PHC/Sub-Centre for utilization for the health and welfare of the local workers involved in mining activity and villagers living in the close vicinity. Regular Medical checkups and free medicines shall be provided under the fund.

15	The Project Proponent must ensure that the biological clock of the villagers in the vicinity of the project is not disturbed by any unauthorized night operations and all measures must be taken for keeping the noise levels within prescribed levels.
16	Provision shall be kept for housing of the labour force, toilets, facilities for cooking, safe water, health care, crèche etc. for the labour force.
17	A final Mine closure Plan along with details of Corpus fund shall be communicated to the MoEF&CC in advance for approval.
18	The top soil in case of surface land mining shall be temporarily stored at the designated / appropriate site and concurrently used for land reclamation.
19	The mining operations shall be undertaken in a systematic manner so that it does not damage the aesthetic view of the area.
20	Adequate steps should be taken to check soil erosion and engineering structures shall be raised wherever required. The mining shall be restricted to 3/4 th of the width of the river/riverlet or 7.5 m(inward) from river bank but upto 10% of the width of the river. While calculating targeted mineral production and while formulating the mining plan, the project proponent shall ensure that the area for removal of minerals shall not exceed 60% of the mine lease area, and any deviation or relaxation in this regard shall be adequately supported by the scientific report in accordance with Sand Mining Monitoring & Enforcement Guidelines of 2020.
21	The compliance report shall be submitted at Integrated Regional Office of MoEF&CC, Jammu with a copy to the Regulatory Authority.
22	The mining activity should in no case go beyond the area as mentioned in the Letter of Intent or Environmental clearance letter, whichever is less and a buffer area is maintained such that the slopes of adjoining area does not get disturbed.
23	All the provisions made and restrictions imposed as covered in the Minor Mineral Rules, shall be complied with, particularly regarding Environment Management Practices and its fund management.
24	The recommendations made in the District Survey Report on sustainable mining practices if any shall be complied.
25	The mining shall be done in bench form with maximum bench height within the mining depth as prescribed by the Expert Appraisal Committee
26	Mining should be initiated only after installation of signboards with demarcation pillars indicating the geo-coordinates of the plot as mentioned in the letter of intent, measurements (length /breadth) and should be laid in presence of the authorized official of the Geology & Mining Department. All vertices /corners of the mining block must be marked with concrete pillars of size 0.5mtx0.5mt x2.5mts (2.5 mts. is the depth below the NSL).The demarcation pillars site should mention the specific EC conditions and contact details of concerned authorities responsible for monitoring of compliance of EC conditions/district administration/Police at four corners of the mining block prominently on a large size durable display board for enabling the public to inform the authorities in case of violation of the EC conditions. The display board with details shall be maintained in perfect order throughout the period of lease/mining.
27	There should be no change in the method of excavation and quantity of minerals to be extracted.
28	The EC holder shall keep a correct account of quantity of mineral mined out, dispatched from the mine, mode of transport, registration number of vehicle, person in-charge of vehicle and mine plan. This should be produced before officers concerned for inspection.

29	The access to mining site should be controlled in a way that vehicles carrying mineral from that area are tracked and accounted for in accordance with standing guidelines issued by the Govt.
30	The Geology & Mining Department should use technology like Bar Coding, Information and Communications Technology (ICT), Web based and ICT enabled services, mobile SMS App etc. to account for weight of mineral being taken out of the plot and the number of trucks moving out with the mineral.
31	The PP should ensure no agriculture land in the area is used for any storage of sand or gets damaged due to any other transportation activity. Where ever, damages to agricultural land, assets or human or bovine life by way of plying of trollies and tippers etc. involved in transportation of minor mineral is reported, the Project Proponent shall pay adequate compensation with penalty to the effected persons as to be fixed up by the competent authority.
32	Waste generated will be collected on regular basis and will be disposed as per the Municipal Solid Waste Management (Management & Handling) Rule 2000 and its subsequent amendments.
33	Spring sources should not be affected due to mining activities. Necessary Protection measures are to be incorporated.
34	The mineral transportation shall be carried out through covered trucks only and the vehicles carrying the mineral shall not be overloaded.
35	Overloading of trucks and trolleys will be avoided.
36	All the instructions from authorities representing various government departments having stakes shall be complied with during the mining operations.
37	Haul road will be kept wide, compact and water spraying will be done. It shall be properly maintain by the PP and restored to original position after mining. Axel load on the roads should not exceed the prescribed load as per IRC
38	Restricted working hours. Mining operation has to be carried out between 6 am to 7 pm. During day light. Mining operations shall not be allowed at night.
39	No overhangs shall be allowed to be formed due to mining and mining shall not be allowed in area where subsidence of rocks is likely to occur due to steep angle of slope. Mining activity shall not be avoided in rainy season
40	Vehicles used for transportation of material are to be permitted only with fitness and PUC Certificates.
41	There shall be no extraction of stone / boulder in landslide prone areas.
42	Adequate facility for drinking water and toilets should be provided for the workers.
43	There should be controlled clearance of overground vegetation to be undertaken.
44	Transport of mineral will not be done through villages / habitations and any private productive or waste land.
45	Deep drilled handpump with sufficient funding provision should be earmarked for providing drinking facility to the labour force.
46	Recommendations of National Institute for Labour for ensuring good occupational environment for mine workers would also be adopted.
47	The PP shall be responsible for enforcement of COVID-19 standard operating procedures and guidelines with respect to safety of workers involved in the mining activity.
48	Project Proponent shall ensure that the road may not be damaged due to transportation of the mineral and transport of minerals will be as per IRC relevant guidelines if any in this regard.

49	Health and safety of workers should be taken care of. They should also be provided training in safety and health care aspects.
50	Junction at takeoff point of approach road with main road be properly developed with proper width and geometry required for safe movement of traffic by concession holder at his own cost.
51	No stacking shall be allowed on road side along National Highway or any public road.
52	Concealing of any information/data of submission of wrong/fabricated information by the Project Proponent and failure to comply with any of the above conditions may lead to withdrawal of the EC and attract action under the provisions of EP Act, 1986.
53	Mining shall be done manually minimally supported by semi-mechanized methods. Heavy machinery like JCBs, Excavators/L&T hydraulic excavators etc. should not be allowed. Emphasis should be given to employment of locally available labour force to address the socio-economic concerns of the locals.
54	The progressive mine closure shall be as per Rules in vogue. All actions relating to progressive mine closure shall be taken well in advance during the final year of mining so that the site is rehabilitated ecologically.
55	The reasonable concerns expressed by the local population during public hearing or otherwise shall be addressed by the Project Proponent. No blasting operations shall be allowed.
56	No mining activity shall be carried out in flowing water channel area within the mining block and adequate measures shall be taken to safeguard water quality and aquatic life including fisheries if available in the same.
57	The PP shall earmark funds strictly as per the agreed Environmental Management Plan to be spent on environmental monitoring, dust sprinkling, green belt development, rehabilitation of mined out area and landscaping/regressing and haulage route maintenance. The detailed updated plan shall be submitted to JKEIAA as per above deliberations before grant of formal EC, if desired by the JKEAC. Further, the CSR funds shall be earmarked and utilized as per CSR Rules.
58	The hydraulic structures/embankments /protection bunds shall not be disturbed /damaged during mining operations.
59	The alignment of the bank of the river and water shall not be changed in any case.
60	The water way of the Nalla shall not be restricted.
61	The applicant is bound to abide by the J&K Water Resources (Regulation and Management) Act and Rules of 2011 and J&K Fisheries Act, 2016 and all other relevant Acts and Rules thereof.
62	The EC is subject to condition that the mining block is located on state land exclusively in river bed without any encumbrances of any sort.
63	Under CSR, within 2 km radial distance, activities like regular health check-up of local villagers once a week shall be undertaken with free medicines. Safe drinking water facility by way of renovation of existing tanks/wells, digging of new tube wells and installation of water filters shall be undertaken. Skill development trainings shall be organized for unemployed local youth. Further, construction of toilets in schools, solar street lighting, free distribution of books, note books, N95 masks, hand sanitizers and school bags among students within 2 km radius from the mine area shall be undertaken. Under EMP, with 2 kms radial distance from mine area; air, water, soil, noise pollution monitoring on half yearly basis, black topping of roads passing through villages and maintenance of haulage /extraction routes, water sprinkling, PPE to mine workers, bearing of school/college fee and allied costs on education of children of mine workers, bearing of all costs on ailments/healthcare of mine workers, creation of green belt by

	way of raising and maintenance of 2500 trees per hectare on land identified by DFO Social Forestry concerned in consultation with village panchayat during the period of mining, shall be undertaken.
64	The JKEIAA reserves the right to impose any other condition in the EC at any time during the period of mining lease. The JKEIAA reserves the right to revoke the EC in case any of the environmental clearance conditions are violated during the mining activity. Mere grant of Environmental Clearance does not entitle the Project Proponent for grant of mining lease unless he obtains all other clearances as required under other provisions of law.
65	The EC is subject to condition that the Project proponent shall not change the water course of the river and no mining activity shall be carried out in active channel area, if any in the mining block.
66	Wherever the PP has to transport the mined out material across shallow water creeks found inside the mining block, he shall lay Hume pipes of appropriate sizes for the purpose so as not to disturb the natural flow of water.
67	On the request of project proponent, the competent authority shall issue necessary corrigendum to the approved mining plan w.r.t mining depth and area excluding the active water channel /green patch/ flood control structures/maintenance of safe distance to bridges/hydraulic structures and quantification of the targeted mineral, if and wherever, recommended by the Expert Appraisal Committee.
68	The project proponent shall undertake an environmental audit at least once a year by a reputed third-party entity and report of such audit shall be placed in public domain.
69	To ensure that irrigation inlets are not left high and dry due to mining and resultant degradation of bed, the Project Proponent also must construct well-designed cut-off walls, stretching bank to bank, having depth 1.5 times the maximum scour depth below the bed level, both upstream and downstream, maintaining prescribed distance from irrigation inlet/s as per guidelines.
70	The District Mineral Officer shall monitor the replenishment of the mined-out areas, traffic management, levels of production, river bank erosion, exit point of the site and instruct the Project proponent for initiating measures for mitigating environmental concerns.
71	The PP shall not sub-let the mining block to any third party without written approval from the JKEIAA
72	After ceasing the mining operations, the project proponent shall undertake re-grassing of the mining lease area and any other area which may have been disturbed due to mining activities and restore the area to a condition fit for growth of flora, fauna and fodder as per rules in vogue.
73	The Project Proponent shall strictly adhere to the Sand Mining Guidelines of 2016 and Enforcement and Monitoring Guidelines of 2020 issued by the Ministry of Environment, Forest & Climate Change, GoI
74	An appeal against the EC shall lie with the Hon'ble NGT, if preferred within 30 days as prescribed under Section 16 of the NGT Act, 2010.
75	In the event any conflict in interpretation of Standard /General Conditions vis-a vis Specific Conditions, the Specific Conditions shall prevail.
