

Agenda notes for SEIAA meeting dated 10.03.2022 etc. and minutes of the meeting

Online Proposals

73rd Meeting of SEIAA, Odisha dated 10.03.2022 at 11.00 a.m.

Sl. No.	Proposal Category (B1, B2) and Proposal type (TOR/ ECI/NO ORTRA master of ECI)	Project Sector and EIA notification Schedule.	Auto generated File No.	Name of the Applicant/ Project Proponent	Title of the proposal	Date of receipt of the proposal online	Status indicated in the PARIVESH portal	Decision of SEIAA in the previous meeting	Current Status and Agenda Note	Observations / Decisions of SEIAA Meeting
1.	B1, EC	1(a) Mining of minerals	SI/ OR/ MIN/ 5469 3/2020	Sri. Prafulla Kumar Sahoo	Proposal for EC of Kathajodi River Sand Quarry, Unit-37, Badambadi sand mine on river Kathajodi over an area of 5.06 Ha/ 12.50 Acre in village- Unit-37 of Badambadi, Tahasil- Sadar Cuttack, Tahasil- Cuttack (ToR issued- 9850/SEIAA dated 19.11.2020)	02.02.2022	Under examination of SEIAA after SEAC	This is a online proposal for EC.	This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B1' as the lease area is 25.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) - "Mining of Mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC for Kathajodi River Sand Quarry, Unit-37, Badambadi sand mine on river Kathajodi over an area of 5.06 Ha/ 12.50 Acre in village Unit-37, Badambadi, under Sadar Cuttack Tahasil of Cuttack district of Tahasil, Sadar Cuttack and the PP is Sri Prafulla Sahoo. The following documents have been received Final EIA & EMP, PFR, mining plan, cluster certificate and replenishment study report The following deficiencies/omission have been noticed in the above documents. Not submitted signed DSR copy Not signed in the replenishment study report, not mentioned date of data collected and the person who collected the replenishment data.	SEAC may be requested to carefully scrutinise the report submitted on study of replenishment rate, and deliberate on the data furnished.

Distance from nearest sanctuary/ESZ-Nadankan Zoo WLS-15.0 Km

Whether the lease area coming in D.L.C. report-No

Whether the lease area reflecting in DSR-Yes

Method of mining- semi-mechanised

River-Kathajori, depth of sand deposition-3.0m

Distance from Nearest Road Bridge-4.5km,

Whether it is part of cluster - No

Whether EC obtained earlier- No

Production capacity per annum-45000 cum/annum(max.), Geological reserve-151758 cum, Mineable reserve-125001 cum

This is a B1 category project.

Whether SEAC recommended the proposal -Yes

Other points

Earlier ToR was issued by SEIAA vide letter no. 6950/SEIAA dt. 19.11.2020

Public hearing was conducted on 08.11.2021 and the main issues raised in the public hearing are plantation, water sprinkling and, employment,

Replenishment Study Report -average depth of sand deposited after monsoon period is 2.0m and according to the mineral reserve after replenishment will be total area-50000 * depth -3.2m= 160000 cum and the PP proposed for production of 20000 cum per annum.

The SEAC recommended the proposal for EC in its meeting held on 18.02.2022 with some specific conditions as follows:

Revised mining plan shall be prepared based on essential physical criteria as per Enforcement and Monitoring Guidelines for Sand Mining, January 2020 of MoEF&CC, Govt. of India enclosed as **Annexure - B**.

Regular replenishment study to be conducted and report to be submitted.

Provision of Bio-toilet shall be made at the site.

Avenue plantation and plantation on both sides of the haulage road in consultation with/ on the advice of concerned Forest Department, Government of Odisha & W.R. Department Government of Odisha as well.

						<p>Permission to use public road including Ring road, Outback from the appropriate authority including its maintenance.</p> <p>Stone patching with plantation in between along the stretch of the bank associated with sand mining and necessary ramp construction shall be made.</p> <p>A site visit to be planned in 03 months' time to ensure implementation of agreed measures.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration of EC.</p> <p>This is regarding a new proposal for mining of minor mineral sand. The project has submitted at SEIAA under Category 'B1' as the lease area is 25.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) – "Mining of Mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC for Uttamapur Sand Bed over lease area 5.67Ha/14.00acres at Village-Uttamapur, Tahasil-Cuttack Sadar and District-Cuttack of lessee Smt Chinnayee Muduli.</p> <p>The following documents have been received Final EIA & EMP, PFR, mining plan, cluster certificate and replenishment study report</p> <p>The following deficiencies/omission have been noticed in the above documents.</p> <p>Not submitted signed DSR copy</p> <p>Not signed in the replenishment study report, not mentioned date of data collected and the person who collected the replenishment data.</p> <p>Distance from nearest sanctuary/ESZ-Nadankan Zoo WLS-15.0 Km</p> <p>Whether the lease area coming in D.L.C. report- No</p> <p>Whether the lease area reflecting in DSR- Yes</p> <p>Method of mining- semi-mechanised</p> <p>River-Kuakhai, depth of sand deposition-2.0m</p> <p>Distance from Nearest Road Bridge-2.7km,</p> <p>Whether it is part of cluster – No</p> <p>Whether EC obtained earlier- No</p> <p>Production capacity per annum-20000 cum/annum(max.), Geological reserve-113314 cum, Mineable reserve-83336 cum</p> <p>This is a B1 category project.</p>	<p>SEAC may be requested to carefully scrutinise the report submitted on study of replenishment rate, and deliberate on the data furnished.</p>		
2.	B1, EC	1(a) Mining of minerals	SIA/ OR/ MIN/ 5489 8/2020	Smt Chinnayee Muduli	Proposal of Smt Chinnayee Muduli for EC of Uttamapur Sand Bed mines on river Kuakhai over an area of 5.67 Ha/ 14 Acre in village Uttampur (ToR issued- 9656/SEIAA dated 19.11.2020)	02.02.2022	Under examination of SEIAA after SEAC	This is a online proposal for EC.	

<p>Whether SEAC recommended the proposal –Yes <u>Other points</u> Earlier ToR was issued by SEIAA vide letter no. 9656/SEIAA dt. 19.11.2020</p>		<p>Public hearing was conducted on 03.11.2021 and the main issues raised in the public hearing are plantation, development of nearest school, employment,</p>		<p>Replenishment Study Report-average depth of sand deposited after monsoon period is 2.0m and according to the mineral reserve after replenishment will be total area-56700 x depth -2.0m= 113400 cum and the PP proposed for production of 20000 cum per annum.</p>		<p>The SEAC recommended the proposal for EC in its meeting held on 18.02.2022 with some specific conditions as follows:</p>		<p>Revised mining plan shall be prepared based on essential physical criteria as per Enforcement and Monitoring Guidelines for Sand Mining, January 2020 of MoEF&CC, Govt. of India enclosed as Annexure - B.</p>		<p>Regular replenishment study to be conducted and report to be submitted.</p>		<p>Provision of Bio-toilet shall be made at the site.</p>		<p>Avenue plantation and plantation on both sides of the haulage road in consultation with/ on the advice of concerned Forest Department, Government of Odisha & W.R. Department Government of Odisha as well.</p>		<p>Permission to use public road including Ring Road, Cuttack from the appropriate authority including its maintenance.</p>		<p>Stone patching with plantation in between along the stretch of the bank associated with sand mining and necessary ramp construction shall be made.</p>		<p>A site visit to be planned in 03 months' time to ensure implementation of agreed measures.</p>		<p>In view of the above the proposal may be placed in the SEIAA meeting for consideration of EC.</p>																							

3.	B1, EC	1(a) Mining of minera ls	SIA/ OR/ MIN/ 7171 8/202 0	Sn. Rajend ra Prasad Singh	Proposal of Sn. Rajendra Prasad Singh for EC of Brahmapur Sand Bed Mines On River Kathajodi Over An Area Of 5.26ha/13acres in Village- Brahmapur, Tahasli- Sadar Cutback, Tahasli- Cutback (ToR issued- 9644/SEIAA dated 19.11.2020)	02.02.2 022	Under exami nation of SEIAA after SEAC	This is a online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B1' as the lease area is 25.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) - "Mining of Mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC for Brahmapur River Sand Quarry, over an area of 5.26 Ha/ 13.00 Acre in village-Brahmapur, under Sadar Cutback Tahasli of Cutback district of Tahasli, Sadar Cutback and the PP is Sn Rajendra Singh.</p> <p>The following documents have been received Final EIA & EMP, PFR, mining plan, cluster certificate and replenishment study report</p> <p>The following deficiencies/omission have been noticed in the above documents. Not submitted signed DSR copy Not signed in the replenishment study report, not mentioned date of data collected and the person who collected the replenishment data. Distance from nearest sanctuary/ESZ-Nadankan Zoo WL.S-12.0 Km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Manual River-Kathajodi, depth of sand deposition-0.6m Distance from Nearest Road Bridge-2.5km, Whether it is part of cluster - No Whether EC obtained earlier- Yes, submitted EC compliance Production capacity per annum-7000 cum/annum(max.), Geological reserve-31566 cum, Mineable reserve-29164 cum This is a B1 category project. Whether SEAC recommended the proposal -Yes Other points Earlier ToR was issued by SEIAA vide letter no. 9644/SEIAA dt. 19.11.2020 Public hearing was conducted on 28.10.2021 and the main issues raised in the public hearing are plantation, water sprinkling, avoid accident during transportation of sand, and to follow the EC conditions etc.</p> <p>Replenishment Study Report-average depth of sand deposited after monsoon period is 0.9m and according the mineral reserve</p>	SEAC may be requested to carefully scrutinise the report submitted on study of replenishment rate, and deliberate on the data furnished.

A site visit to be planned in 03 months' time to ensure implementation of agreed measures.</p>	<p>ToR may be issued for this violation case prescribing conditions mandated by the SOP formed by MoEF&CC dated 07.07.2021, and as per conditions prescribed by SEAC.</p>
----	---------	-------------------------	----------------------------	---------------------------	---	------------	---------------------------------------	-------------------------------------	---	---	---

- Hon'ble Supreme Court in the matter of Common Cause vrs Union of India in W.P. (C) No. 114/2014 and also directed to deposit the same on or before 31.12.2017.
7. They had deposited a sum of Rs.4,51,50,000.00 to the State Government which includes the principal amount of Rs.3,46,41,047.00 * and applicable interest of Rs.1,05,08,953.00. This amount also includes the value of un-disposed stock of iron ore. I had also deposited the entire demand amounting to Rs.6,21,500.00 for which a separate show cause notice was issued by the Mining Officer, Baripada without / in excess of MP/CTO.
 8. Application was made for grant of Environmental Clearance through online portal developed by the MoEF&CC, Government of India vide proposal No.SIA/OR/MIN/39494/2019 dated 18.09.2019 after depositing the compensation amount demanded by the Steel & Mines Department.
 9. The said proposal was placed before the Hon'ble Committee SEAC, Odisha held on 14.02.2020 and Presentation was made before the Committee. The SEAC, Odisha decided to take decision on the proposal of after submission of certain information as desired vide letter dated 25.02.2020 and the same was submitted by the lessee vide its letter dated 11.03.2020. The lessee requested to consider the proposal under non-violation as the lessee has deposited the entire compensation as demanded u/s 21(5) of MMDR Act.
 10. The SEAC, Odisha was not aware about non-considering the case as a violation case as per above request of the proponent as MoEF&CC, Govt. of India has not issued any guidelines for the same.
 11. On 07.07.2021 the MoEF&CC, Government of India has issued Office Memorandum (OM) known as "Standard Operating Procedure" (SOP) for identification, handling of violation cases under EIA Notification 2006 in compliance to order of Hon'ble National Green Tribunal in O.A No. 34/WZ2020.
 12. The Lessee vide its letter dated 16.07.2021 had requested to the both Committee SEIAA, Odisha & SEAC, Odisha to reconsider the proposal for grant of Terms of Reference (TOR) as per OM dated 07.07.2021.

18. "The interim order passed by the Madras High Court appears to be misconceived. However, this Court is not hearing an appeal from that interim order. The interim stay passed by the Madras High Court can have no application to operation of the Standard Operating Procedure to Projects in territories * beyond the territorial jurisdiction of Madras High Court."
19. The above decision of the Hon'ble Court has been communicated to all authorities by MoEF&CC, Govt. of India through OM dated 28.01.2022.
20. Therefore, the lessee further, submitted its requested vide letter dated 07.02.2022 to consider the proposal dated 06.06.2021 in accordance with the SOP dated 07.07.2021 and OM dated 28.01.2022 of MoEF & CC, Government of India.
21. The SEAC recommended the proposal in its meeting held on 19.02.2022 for issued of Violation TOR with stipulated conditions as follows:
- a. The State Government to take action against the project proponent under the provisions of section 19 of the Environment (Protection) Act, 1986, and further no Consent to Operate to be issued till the project is granted Environmental Clearance.
 - b. The project proponent shall be required to submit a bank guarantee equivalent to the amount of remediation plan and natural and community resource augmentation plan with the SPCB prior to the grant of Environmental Clearance. The quantum shall be recommended by the SEAC and finalized by the regulatory authority i.e. SEIAA, Odisha as per para-12 of Standard Operating Procedure (SoP) for Identification and handling of violation cases under EIA Notification 2006 in compliance to order of Hon'ble National Green Tribunal in O.A. No.34/2020 WZ issued by MoEF&CC, Govt. of India vide OM No. 22-21/2020-IA.III, dated 07.07.2021 and OM No. 22-21/2020-IA.III (E 138949), dated 28.01.2022. The bank guarantee shall be released after successful implementation of the EMP, followed by recommendations of the SEAC and approval of the regulatory authority i.e. SEIAA, Odisha.
 - c. Assessment of ecological damage with respect to air, water, land and other environmental attributes. The collection and analysis of data shall be done by an environmental

8.	B1, TOR	1(a) Mining of minerals	SIA/ OR/ MIN/ 7145 9/202 2	Sr. Baj rang Lal Gupta	Proposal of ToR of Sri. Bajrang Lal Gupta for Paikadakuiguda Semi Precious Stone (Cat's Eye) Mines over an area of 38.316 Ha or 94.68 acres in village- Paikadakuiguda, Kandhadakuiguda and Badolima, Tahasil/PS- Bissam Cuttack, District- Rayagada	07.02.2 022	Under examination of SEIAA after SEAC	This is a online proposal for TOR.	<p>Permission to use public road including Ring road, Cuttack from the appropriate authority including its maintenance.</p> <p>Stone patching with plantation in between along the stretch of the bank associated with sand mining and necessary ramp construction shall be made.</p> <p>A site visit to be planned in 03 months' time to ensure implementation of agreed measures.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration</p> <p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B1' as the lease area is 25.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No. 1(a)-"Mining of Mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of ToR for Paikadakuiguda Semi Precious Stone Cat's Eye Mines over an area of 38.316 Ha or 94.68 acres in village- Paikadakuiguda, Kandhadakuiguda and Badolima, Tahasil/PS- Bissam Cuttack District-Rayagada, State-Odisha and the project proponent is Sri Bajrang Gupta.</p> <p>The following documents have been received Mining plan, PFR, land schedule, lease order and scrutiny fee</p> <p>The following deficiencies/omission have been noticed in the above documents. DLC report, cluster certificate, checklist</p> <p>Distance from nearest sanctuary/ESZ-Not mentioned</p> <p>Whether the lease area coming in D.L.C. report-not submitted</p> <p>Whether the lease area reflecting in DSR-Not submitted</p> <p>Method of mining- Semi-mechanized</p> <p>Distance from Nearest Road Bridge-not mentioned</p> <p>Whether it is part of cluster - No</p> <p>Whether EC obtained earlier- No</p> <p>Production capacity per annum-8000 cum (annum)(max).</p> <p>This is a B1 category project.</p> <p>Whether SEAC recommended the proposal -Yes, the SEAC recommended specific ToR in its meeting held on 19.02.2022 as follows:</p>	TOR be issued with standard conditions + specific conditions proposed by SEAC.
----	---------	-------------------------	----------------------------	------------------------	--	-------------	---------------------------------------	------------------------------------	--	--

The granted by Govt. of Odisha vide letter no. 11910/SM dt. 15.10.2001 for a period of 50 years.

Maximum excavation during plan period will be 34600 cum and waste will be generate-34600 cum.

The has submitted land schedule but not submitted DLC certificate.

On the basis of geological study of M.L area and data obtained by the local people, a total quantity of 211 kg mineable chrysoberyl in form of Cat's Eye has been estimated under probable reserve which has formed the basis for preparation of this modification of mining plan. Mine to produce Cat's Eye at the rate of 28 kg to 40 kg / annum.

The M.L area is accessible from Muniguda (the nearest township & PS area) covering a distance of 5 km well maintained metal road. Muniguda lies on the Bhawanipatna-Bissamcuttack road. Bhawanipatna (the district head quarter) and Bissamcuttack (tehsil area) are situated at a distance of 67 km north and 13 km south of Muniguda. Raipur, the state capital of Chhattishgarh, is situated at a distance of 300 km north of Muniguda. The nearest railway station is also Muniguda on the Raipur-Vizianagaram section of the south-eastern railway.

There will be excavation of semi-precious stone from the lease area through opencast semi mechanized mining method. The project is proposed for excavation of semi precious stone Maximum production Capacity: 8000Cu.m/ annum, Maximum excavation: 34600cu.m. During the plane period, 34600m³ OB/Waste materials will be dumped over an area of 7208m² or 0.721 ha at 4.8m average height in one terrace of 7.5m height. Dump will be compacted and levelled to prevent the erosion of waste materials from rain and wind. Slope of the terrace will be maintained equivalent with the angle of repose of the waste materials i.e. around 37°30' with the horizontal.

Cat's Eye to OB / waste ratio is 1:200 (Kg/m³). Therefore, likely

9.	B1, TOR	1(a) Mining of minerals	SIA/ OR/ MIN/ 7181	M/S Kashvi Power & Steel Private	Proposal of ToR of M/s Kashvi Power & Steel Private Limited for Production of	07.02.2022	Under examination of SEIAA	This is a online proposal for TOR.	<p>generation of waste during the conceptual period will be (mineable reserve x 200 = 211 x 200 =) 42,200m³. Out of these, 34,600m³ waste which will be dumped over an area of 7,208m² at 4.8m average height in 1 terrace of 7.5m height each and remaining waste will be utilized for back-filling of mined out area.</p> <p>Tube well is the source of water for drinking purpose in nearby villages. Vasundhara river and Kanjorhi (a perennial nala) and tanks provide water for non-domestic use. Total water requirement for the project will be 5 KLD out of which 2 KLD will be required for drinking and domestic purpose and 1.5 KLD for dust suppression and 1.5 KLD for plantation purpose. Source of domestic water will be nearby village well. No electricity connection within ML area. However solar lights will be employed for day to day living purposes. Diesel requirement will be 6000 liters/month.</p> <p>The SEAC recommended the proposal for ToR with specific conditions as follows:</p> <p>Kisam of the land is stated to be "Basti Agya" & Agricultural land and as such, the Haal/Sabak of the same to be confirmed and need to be converted to "Mining purpose" before start of mining.</p> <p>Since ratio of mineral: waste/ OB is 1:200, detail OB/ Waste management to be submitted.</p> <p>Management and procedure to arrest wash off through rain cuts during rainy season and Silt Management with procedure for de-siltation if nearest agricultural lands and water bodies since nearest river embankment of river Kanjorhi is at 200 mtrs only.</p> <p>Provision of STP of adequate capacity since manpower is 74 plus floating population.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for issue of ToR.</p>	TOR be issued with standard conditions,

|---|--|--|--|--|--|--|--|--|--|
| <p>ix) The project proponent should submit the real-time aerial footage & video of the mining lease area and of the transportation route. The project proponent should submit the detailed plan in tabular format (year-wise for life of mine) for afforestation and green belt development in and around the mining lease. The project proponent should submit the number of saplings to be planted, area to be covered under afforestation & green belt, location of plantation, target for survival rate and budget earmarked for the afforestation & green belt development. In addition to this the project proponent should show on a surface plan (5-year interval for life of mine) of suitable scale the area to be covered under afforestation & green belt clearly mentioning the latitude and longitude of the area to be covered during each 5 years. The capital and recurring expenditure to be incurred needs to be submitted. Presently in India there are many agencies which are developing forest in short interval of time. Thus, for the plantation activities details of the experts/agencies to be engaged needs to be provided with budgetary provisions.</p> <p>x) The project proponent should submit the quantity of surface or ground water to be used for this project. The complete water balance cycle needs to be submitted. In addition to this PP should submit a detailed plan for rain water harvesting measures to be taken. PP should submit the year wise target for reduction in consumption of the ground/surface water by developing alternative source of water through rain water harvesting measures. The capital and recurring expenditure to be incurred needs to be submitted.</p> <p>xi) The project proponent should clearly bring out the details of the manpower to be engaged for this project with their roles /responsibilities/designations. In addition to this the project proponent should mention the number and designation of person to be engaged for implementation of environmental management plan (EMP). The capital and recurring expenditure to be incurred needs to be submitted.</p> <p>xii) The project proponent should submit the year-wise, activity wise and time bound budget earmarked for EMP, occupational health surveillance & Corporate Environmental Responsibility. The capital and recurring expenditure to be incurred needs to be submitted.</p> | | | | | | | | | |
|---|--|--|--|--|--|--|--|--|--|

								<p>xiii) The project proponent should submit the measures/technology to be adopted for prevention of illegal mining and pilferage of mineral. The project proponent should submit the detailed mineralogical and chemical composition of the mineral and percentage of free silica from a NABL/MoEF&CC accredited laboratory.</p> <p>xiv) The project proponent should clearly show the transport route of the mineral and protection and mitigative measure to be adopted while transportation of the mineral. The impact from the center line of the road on either side should be clearly brought out supported with the line source modelling and isopleth. Further, frequency of testing of Poly Achromatic Hydrocarbon needs to be submitted along with budget. Based on the above study the compensation to be paid in the event of damage to the crop and land on the either side of the road needs to be mentioned. The project proponent should provide the source of equations used and complete calculations for computing the emission rate from the various sources.</p> <p>xv) The project proponent should clearly bring out that what is the specific diesel consumption and steps to be taken for reduction of the same. Year-wise target for reduction in the specific diesel consumption needs to be submitted.</p> <p>xvi) The project proponent should bring out the awareness campaign to be carried out on various environmental issues, practical training facility to be provided to the environmental engineer/diploma holders, mining engineer/diploma holders, geologists, and other trades related to mining operations. Target for the same needs to be submitted.</p> <p>xvii) The budget to be earmarked for the various activities shall be decided after perusal of the Standard EC conditions. After perusal of Standard EC conditions if agreed the project proponent should also submit an undertaking by the way of affidavit for Compliance of Standard EC conditions already prescribed by the Ministry vide O.M. No and Specific condition if prescribed by the SEAC/SEIAA, Odisha.</p> <p>xviii) The project proponent should ensure that only NABET accredited consultant shall be engaged for the preparation of EIA/EEMP Reports. The project proponent shall ensure that accreditation of consultant shall be valid during the</p>
--	--	--	--	--	--	--	--	---

			<p>collection of baseline data, preparation of EIA/EEMP report and during the appraisal process. The project proponent and consultant should submit an undertaking the information and data provided in the EIA Report and submitted to the SEIAA, Odisha are factually correct and the project proponent and consultant are fully accountable for the same.</p> <p>xix) The project proponent should submit the photograph of monitoring stations & sampling locations. The photograph should bear the date, time, latitude & longitude of the monitoring station/sampling location. In addition to this the project proponent should submit the original test reports and certificates of the labs which will analyze the samples.</p> <p>xx) The percentage of iron in the final waste generated and not used as iron ore or its upgradation.</p> <p>xxi) Compliance to NEERI recommendations.</p> <p>xxii) "Zero discharge" management & "Zero Dust Re-suppression" management with SOP be submitted.</p> <p>xxiii) Internal roads, drain management with network of the drain, retaining walls and settling tanks with ETPs be submitted.</p> <p>xxiv) Details of air quality monitoring stations of the area and additional stations at entry and exit of mines and haulage roads, habitation to be considered.</p> <p>xxv) Construction and perennial maintenance of haulage road with details of plantation and the species thereof to be submitted.</p> <p>xxvi) Parking plaza layout with maximum no. of vehicles and types of vehicles that can be parked with basic amenities and facilities.</p> <p>xxvii) Forest Clearance details with copy of all Forest Clearance.</p> <p>xxviii) Status of complaints/ court cases/legal action regarding to lease along with a detailed write up indicating case no., purpose of the case etc.</p> <p>xxix) Copy of lease document.</p> <p>xxx) Details of waste management i.e. composition and nature of waste generated, tabulated form showing year wise waste generation, usage and storage.</p>
--	--	--	--

54

											<p>generation and utilization in consideration with dynamic movement of inventory indicating dump area and dimension of storage be submitted.</p> <p>Details of grades to be produced, to be discarded as waste and dumps and the utilisation plan.</p> <p>Details of Trees falling.</p> <p>The road to which the approach road of 3.5 kms as stated to be connected?</p> <p>Permission/ NOC from CGWA as a contingency measure in case of intersection with ground water and the corresponding Disaster Management plan.</p> <p>Details of plan and calculation of consumption of solar power including for water sprinkling vis - a - vis the generation and as percentage of total power demand.</p> <p>Site specific wild Life management plan including protection and conservation of Endangered, Threatened and Near Threatened living species along with their categories be identified and submitted.</p> <p>Rain water Harvesting Pond(s) details with design.</p> <p>Provision of suitable size of sump be planned in the second review of Mining Plan period prior to backfilling of Mined out area. The sump will be beneficial for the storage of water for use of Mines and recharge of groundwater Aquifer.</p>	<p>Proper mention of this source and its potential has to be there in the DSR, and cluster certificate is to be</p>
