Otherwise also the actual quantity is fixed after submission of replenishment study. Hence, SEAC recommends as below: Proposal for amendment of TOR at this stage may not be considered. In future if replenishment study supports this then it can be considered.

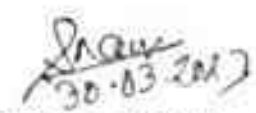

Decision of Authority:

After details deliberation, the Authority decided to reject the Modification of ToR proposal as SEAC reject the proposal due to decrease of reserve by about 8000cum/annum which is less than the allowed quantity in the original TOR i.e. 12,320 cum/annum.
