Sub: Environment Clearance of Kathara OCP of CCL (nominal capacity -0.96 MTPA & peak capacity 1.90 MTPA)

Ref.: **File no. J-11015/482/2008-IA.II(M)**

Dear Sir,

In reference to our telephonic discussion on 17/6/2013 about Environment Clearance of Kathara OCP (nominal capacity -0.96 MTPA & peak capacity 1.90 MTPA), the following details of the project are brought to your notice:

1. ToR for Kathara OC was issued vide OM no. J-11015/482/2008-IA.II(M) dtd. 31.12.2008 and as per the ToR Public Hearing was not required to be conducted for the project.
2. There is no forest land involved in the project. Further no additional land is required and no R&R is involved in the project.
3. EAC considered the project on 22/9/2009, and it was further considered in several meetings of EAC held on 28/29 Jan'2010, July/Aug 2010. Subsequently a Sub-Committee of EAC visited the project on 13.1.2011 and the project was reconsidered on 28-29 Mar'2011. The project was recommended by EAC for Environment Clearance. (The minutes of the meeting is enclosed).
4. Subsequently on 17 May 2011, Director MoEF requested for conducting public hearing which was not required as per ToR. The public hearing was conducted on 4.11.2011 and the minutes were sent to MoEF on 3.8.2012. Copy of minutes along with comments of project enclosed.

In view of the facts mentioned above and considering the balance life of the project which is only about seven years, it is requested that environment clearance of the project be issued at the earliest.

With regards.

(T K Nag)

Director Technical (Operation)
