Overview

The new projects or activities or the expansion or modernization of existing projects or activities listed in the Schedule to the EIA notification entailing capacity addition with change in process or technology and/or product mix shall be undertaken in any part of India only after obtaining prior environmental clearance from the Central Government or as the case may be, by the State Level Environment Impact Assessment Authority, duly constituted by the Central Government under sub-section (3) of section 3 of the said Act, in accordance with the procedure specified therein;

For the purpose of Ethanol Blended Petrol Program, a special dispensation was provided for expansion of sugar manufacturing or distillery units, intended for production of Ethanol vide notifications numbers S.O. 345(E), dated the 17th January, 2019 and S.O. 750(E), dated the 17th February, 2020. In view of the Government's commitment to achieve 20 percentages blending of ethanol in petrol by the year 2025, it was decided to continue further with this dispensation and it was notified vide notification number S.O. 980(E) dated the 2nd March, 2021;

The Central Government has noticed that the expansion projects of sugar manufacturing units or distilleries are generally unable to comply with the requirement of obtaining a certificate from the competent authority, relating to certification that the distillery is producing/shall produce ethanol for blending with fuel in a timely manner thereby stalling the entire process. The matter has been considered and it has been decided that the requirement of certification by the competent authority may be replaced with self-certification in form of a notarized affidavit, subject to the condition that subsequently if it is found that the ethanol, produced based on the EC granted as per this dispensation, is not being used completely for Ethanol Blended Petrol Program, the EC shall stand cancelled;

To give a further boost to the Ethanol Blending Program, Grain-based distilleries, having Zero Liquid Discharge (ZLD) and setup to produce only ethanol for the purposes of Ethanol Blending Program of the Government, and keeping in view overall environmental, social and economic benefits in the production of ethanol from such distilleries including a reduction in Green House Gas emissions in comparison to conventional fossil-fuel, less water, and air pollution, a potential boost to the agricultural economy and reduced dependence on imported fossil fuel by an equivalent amount, the Central Government deems it necessary to give a special dispensation as regards granting of Environmental Clearances (EC) to such category of projects [Manufacturing of ethanol by Grain Based distilleries with Zero Liquid Discharge, to be used for Ethanol Blended Petrol Program of the Government], subject to certain conditions;

Now, therefore, in the exercise of powers conferred by sub-section (1) and clause (v) of sub-section (2) of section 3 of the Environment (Protection) Act, 1986 (29 of 1986), the Central Government, hereby makes the following further amendments in the EIA Notification, namely:-

In the said notification:-

- (i) In paragraph 4 after subparagraph (iii), the following shall be inserted, namely:- (iii a) Such Category 'B' projects, as notified by the Central Government on account of exigencies such as pandemics, natural disasters, or to promote environmentally friendly activities under National Programs or Schemes or Missions, shall be considered at the Central level as Category 'B' projects;

(ii) In the Schedule, against item 5(g), for the entry in column (5), the following shall be substituted:-

- a. Except for the projects falling in item 5(ga) of this Schedule.
- b. Expansion of sugar manufacturing units or distilleries for production of ethanol, having Prior Environment Clearance (EC) for the existing unit, to be used completely for Ethanol Blended Petrol (EBP) Program only, as per self-certification in form of an affidavit by the Project Proponent, shall be appraised as category 'B2' projects.

Provided that subsequently if it is found that the ethanol, produced based on the EC granted as per this dispensation, is not being used completely for EBP Program, or if ethanol is not being produced, or if the said distillery is not fulfilling the requirements based on which the project has been appraised as category B2 project, the EC shall stand canceled”;

- c. in the Schedule, after item 5(g), the following item shall be inserted, namely:-

Objective

This User manual is meant for User Agencies who are supposed to submit an application for the standard orienting procedure for the Filling of a new form (Form-2) for the new provision of Grain Based Distillery Project. for the purpose of the Ethanol Blended Petrol Program, a special dispensation was provided for the expansion of sugar manufacturing or distillery units, intended for production of Ethanol vide notifications numbers S.O. 345(E), dated the 17th January 2019 and S.O. 750(E), dated the 17th February 2020. This form introduces to minimizing the time by asking minimum information for getting the EC clearance

Scope

The purpose of this user manual document is to provide an interface between the user and “**PARIVESH**”. (**Pro-Active Responsive Facilitation by Interactive and Virtuous Environmental Single-window Hub**). For the purpose of applying a new project under the new provision of Grain Based Distillery Project, for the purpose of the Ethanol Blended Petrol Program, a special dispensation was provided for the expansion of sugar manufacturing or distillery units, intended for production of Ethanol.

This user manual document describes the procedure for filling the New/Expansion EC clearance proposal form (FORM-2) under new provision of Grain Based Distillery Project.
